

GOOD BUSINESS YEAR FORECAST BY GEN. OTIS.

Enlightens the East of the Los Angeles Idea and Discourses of the Political Situation—Sees Little Promise in the Bickerings of An Ex-President With the Nation's Chief Executive.

SPECIAL BY FEDERAL "WIRELESS" TELEGRAPH.

LOS ANGELES TIMES BUREAU—New York, May 22.—Gen. Otis, editor and publisher of the Los Angeles Times, who is here purchasing machinery for the new building of that paper avowed to "regime the one destroyed by dynamiters, and who has long led the fight against the closed shop and company violence on the Pacific Coast, discussed with a Sun reporter the outcome of the McNamara case, present labor legislation in Congress, politics, the hiring and feathering of Dr. Ben Reitman by citizens of San Diego, and our latest local strike in New York. Gen. Otis thinks the good effect of the prosecution of the dynamiters in danger of being partially neutralized by the proposed anti-dynamiter bill now before the House. Taft and Root will force some to hate each other that the effect upon the fortunes of the entire Republican party is liable to be injurious.

GEN. OTIS QUOTED.

"Business generally is fairly good on the Pacific Coast," said Gen. Otis at the Waldorf, where he is staying. "This promises to be a good business year with us. We were alarmed early in the season because of the absence of rain, but the rain finally came on time and the crops are now fair. In Los Angeles things are active. All our industries are in a sound condition, and, compared with other cities in the same field, our industrial disturbances have taken place, we are steadily ahead of the procession. The McNamara case is recalled by the fact that the authorities are now after the dynamiters. The attorney for the defense, the attorney for the McNamara, is now on trial charged with attempting to bribe the McNamara jury. The labor union sympathizers who are active in Indiana, and have taken over several interstate railroads, in violation of Federal law, will be tried in Indianapolis and not in Los Angeles.

The outcome of the McNamara trial will determine the future of industrial freedom because its effect was to stay for the time being, the hand of industrial violence. It also definitely vindicated the course of the Los Angeles men in their insistence of freedom in the industries, and moreover, sustained our contention that it was criminal explosion of dynamite that wrecked the Times building. The charge made by Gompers and other union labor leaders that the rain was caused by a gas explosion, due to defects in the Times Building.

The outcome of the McNamara trial will determine the future of industrial freedom because its effect was to stay for the time being, the hand of industrial violence. It also definitely vindicated the course of the Los Angeles men in their insistence of freedom in the industries, and moreover, sustained our contention that it was criminal explosion of dynamite that wrecked the Times building. The charge made by Gompers and other union labor leaders that the rain was caused by a gas explosion, due to defects in the Times Building.

In Los Angeles, instead of being a movement for peace and order in the industries and a measure for the protection of property for the benefit of all the people, it is clear in the direction of granting special favors to the lawless elements of the population, doing direct injury to all that is right. In other words, it effect will be to deny to all who are not in the monopolistic labor combine their lawful constitutional and industrial rights.

LOS ANGELES SITUATION.

"In Los Angeles, industrial quiet continues to reign as a rule. When violence is undertaken, it is promptly suppressed by the law officers and through the force of a healthy public opinion. The principles and the system of industrial freedom have been established and made firmly entrenched in the free city, industrially, on the continent; that system is now, in fact, anchored. Our people do not care up to the last minute of life for so long. It is reasonable, however, that there should be a certain amount of industrial and law-abiding, which it is not in so many cases.

"It was not wholly a surprise to most of our people to learn yesterday that the California went down in favor of President Taft in the recent primaries because we know that the State has been in a condition of unrest ever since political insurgency

OUTLINES OF BIG FEET THAT LEAD TO TORONTO.

(BY A. P. NIGHT WIRE TO THE TIMES.)

DALLAS (Tex.) May 22.—Outlines of huge feet were found stenciled all over Dallas' downtown streets early today, each bearing the inscription:

"Beat it to Toronto in 1912."

This was Toronto's latest contribution to the campaign for the next annual convention of the Associated Advertising Clubs of America. The next host will be selected tomorrow.

James Schuster of Detroit, in

a speech tonight said: "Publicity can do far for what the Right fall upon the Damascene road did for Saul: It can save us from ourselves. It is the searchlight turned back upon our own purposes and methods. It can save nations, States and parties by uncovering the refuge of deceit and the hiding place of duplicity. Some far-sighted corporations are beginning to love light rather than darkness. They are coming out of their secret places to give their side of the case to the common people."

"Professional reserve is blushing in the sunlight of publicity. It thinks it may be able to stand it eventually. You know how it is in medicine, doctors and lawyers would daily let their credentials and records be known of all men, that publicity could point the way straight to the right door in the urgent hour of greatest need.

"The medical associations have a greater horror of getting into print than they have of transmitting infection through the marriage of the physician and the tragedy that might be involved if either not impose solemn silence upon the learned men who could save the race through preventive publicity. Publicity can save bodily health through exposing the secret business through multiplied appeals."

"As a man advertises from day to day in his own business, so is he. It is really the old-fashioned sign

of conversion, taking a stand in marketing. It is the formulation of your business creed, your confession before men.

"You are passing into form your best promptings, your fondest hopes commercially. What you have written, you have written, and when it comes from the printer page day after day, it may speak to others, but it speaks to your sense of consistency and integrity."

"If all of the outset your premises are given, then your performance there is hope; for your copy proves that you know what you ought to do in your dealings with the public. Give consistent time and it will catch up with your copy; for self-accusation is not restricted by the speed laws."

"Advertising may be self-revelation to begin with, but on a long contract it is pretty liable to become self-incrimination. For we all aspire to be come what we are, and that is the root of duplicity. It is the desire that despairs. Publicity is the advertiser's pledge, his covenant with the consumer in the open."

"To the consumer, the public, the world, the government, and daily tested, it should come to be in good time, for true worth is not gained at a bound, but tolls upward through the night—the lodestar of his better self, the light that saves!"

"THE HERALD'S FIGURES, CONVENTION STATISTICS."

Spoken by Federal "Wireless" Telegraph.

NEW YORK, May 22.—The Herald tomorrow will give these figures in the Presidential race:

Republican—Taft, 49%; Roosevelt, 41%; La Follette, 3%; Cumming, 1%; undivided, 6%.

Elected to date, 19%.

Democrat—Clark, 38%; Wilson, 21%; Underwood, 8%; Marshall, 3%; Bryan, 14%; Burke, 10%; Harmon, 4%; unclassified and unclassified, 14%. Yet to be elected, 26%.

DAYLIGHT COMMITTEE.

(Continued from First Page.)

his defense of a client arrested in connection with the Industrial Workers of the World disturbances here. Moore had declared that fifteen others, whose names he could not obtain, had been with Porter at the time the latter was alleged to have threatened the attorney.

State Senator Leroy A. Wright, attorney for Porter, declined to name those said to have been with Porter at the time he was alleged to have told Moore to get a "bunch to himself from the treatment given Dr. Benjamin Reitman, manager for Emma Goldman." Wright, however, promised to produce several witnesses in behalf of Porter, if they were needed in the court proceedings.

The courtroom was crowded when the action was called and many persons who could not obtain admittance were refused admittance. Many citizens were American flags upon their coat lapels, as a sign of sympathy with Porter. It is not known if Mayor and was so ingeniously defeated. Thus far, however, no information is not sufficiently complete to tell me how the women vote was divided between the rival

parties.

"The political outlook is not promising. The chance of trouble about this deplorable conflict between a President and an ex-President, is the fact that it has aroused resentments both political and personal which will not readily die out. The tendency is likely to be in the direction of strengthening the Democratic party. A compromise candidate has been suggested, and the author of the amendment to the Doremus bill, Senator Knowland and Representative Kahn were present and represented the California delegation.

State Senator Leroy A. Wright, chief counsel for Porter, who also was represented by several other attorneys, all serving without compensation, a defender to the affidavit of Attorney Fred H. Moore, who threatened him and interfered with his defense of a client implicated in the Industrial Workers disturbances.

James Grundy, cabinet-maker, recently arrived from Kansas City, where he had been engaged in the consideration of the Doremus amendment and

testified in his defense.

Porter also stated he had told Moore he (Porter) had already saved the attorney from mob violence; ordered him not to bring any agitators to this city; and declared that he, himself, had been nominated to represent the Industrial Workers of the World and would continue to do so.

Porter also stated he had told Moore he (Porter) had already saved the attorney from mob violence; ordered him not to bring any agitators to this city; and declared that he, himself, had been nominated to represent the Industrial Workers of the World and would continue to do so.

Porter declared in his answer that he had been no intent upon his part to threaten or interfere with Moore's court work. He advised Moore to "take a walk" from the courtroom to the hotel the night Dr. Benjamin Reitman, manager for Emma Goldman was taken from San Diego and Kansas City.

Porter also stated he had told Moore he (Porter) had already saved the attorney from mob violence; ordered him not to bring any agitators to this city; and declared that he, himself, had been nominated to represent the Industrial Workers of the World and would continue to do so.

Political
THREE TO ONE FOR ROOSEVELT.

Colonel Has Thirty-two Delegates from Ohio.

President Taft's Ten May Be Cut to Nine.

Harrison Has Control of the Democratic Convention.

[A. P. NIGHT WIRE TO THE TIMES.] COLUMBUS (O.) May 22.—According to returns on hand tonight from approximately 4500 delegates in the Col. Roosevelt delegation to the National Republican convention carried yesterday's primaries by a plurality of about 25,000. The best figures available show that Roosevelt has thirty-two of the forty-two district delegates and that President Taft has ten. This may be changed by one or two delegates either way when final returns are in. **DEMOCRATIC SITUATION.**

Last return on the Democratic convention preference primary vote was: Wyoming, Wilson; 10 delegates for one or two delegates, but Gov. Harmon is assured a practically complete delegation to the Baltimore convention. His lead now gives him control of the State Democratic convention, which will select six delegates-at-large.

It also is said the convention will provide for the rule, while Wilson, who was delegating his delegates to districts yesterday to vote for Harrison.

The delegate-at-large situation in the Republican party will not be fully known until June 10 when the State Republican convention is convened here. Leaders of each side claim control of the convention.

In only twenty-one of the eighty-eight districts where the Roosevelt delegates to the State convention did not go to the State convention did the remaining counties the delegates will be named by county convention.

Even in the matter of district delegates an official count will be necessary to determine exact results. An instance of this sort arose in the thirteenth congressional District (San Joaquin), where later returns indicated the district will be divided almost evenly between Taft and Roosevelt delegates and Harmon and Wilson.

Party figures give the two Roosevelt delegates in this district to Taft. Col. Roosevelt may now get another and thus increase his total to twenty-three that leaves Mr. Wilson 18 delegates.

ANALYSIS OF VOTE.

An analysis of the recapitulated Roosevelt vote shows that Roosevelt himself was not confined to any particular class of citizens. He covered mining and industrial sections of the state, the Valley as well as some of the oldest and most conservative suburban communities. Added to these was much strength among the farmers.

Even in the country, where more than 1000 voters were disfranchised not long ago for voting plural, Roosevelt had a considerable plurality. The new Roosevelt two votes are Taft five. Roosevelt managers looked upon this incident as a harbinger of good fortune.

GERMAN GIRL EXTRADITED.

Turned Over to Imperial Secret Police Charged With Homicide.

Political Crime Is Estimated.

Billed by Federal "Wireless." Telegraph.] PHILADELPHIA, May 22.—On the transocean liner *Excelsior*, now on her way from this port to Europe, are forty-eight seamen, two members of the Imperial German secret police, and one young woman, Maria Furtw. Maria has been spirited out of the United States, a political prisoner, it is said, and extradited under a murder charge which she repudiated.

The German papers which the United States authorities in Pennsylvania turned over to the German authorities in that she killed Carl Thunberg, a Saxon innkeeper, whose son was her lover. Maria denies the charge, and the German press is the prevailing opinion that the German secret police have connected her with the mystery of certain vanished imperial state papers.

MURKIN VIOLENT DEATH.

Brother of Athlete Killed by Jumping From Window Meets End in Fire in Home.

BY DIRECT WIRE TO THE TIMES.]

AURORA (Or.) May 22.—[Exclusive Dispatch.] John Dimick, brother of County Judge Grant R. Dimick of Oregon City, was mysteriously burned to death today when his country home, two miles south of town, was destroyed by fire.

Mr. Dimick was alone when the house caught fire and when neighbors arrived he was not to be seen, although it was evident he was within, from the fact that part of the concrete floor had been broken through and were on the lawn. Dimick had left the house of a neighbor for his own home about twenty minutes before the fire was discovered. The fire had then made such headway that it was impossible to extinguish it after the flames had reached the body was found, burned beyond recognition.

It is believed Mr. Dimick was overcome by the heat while attempting to remove paper needed for his law office client. Mr. Dimick was a native of Ireland and was married in June to Miss Emily Wetherford of Arlington, Or. Dimick was 42 years old. He was a brother of Ralph Dimick, well known athlete, who was killed by a bullet from a gun in St. Vincent's Hospital, Portland, last October while ill and delirious.

LEGISLATORS IN SWARM.

GLOBE (Ariz.) May 22.—[Exclusive Dispatch.] John Dimick, brother of County Judge Grant R. Dimick of Oregon City, was mysteriously burned to death today when his country home, two miles south of town, was destroyed by fire.

Dr. T. Leung, Chinese, of No. 928 South Olive street, was found guilty by Police Judge Ross of practicing medicine without a license. He was prosecuted by the State Medical Board.

BURGLAR REVEALS "CACHE."

Accomplices Police to Safety Deposit Vault Where He Displays Collection of Costly Jewels.

BY A. P. DAY WIRE TO THE TIMES.] NEW YORK, May 22.—A safe deposit vault of the Metropolitan Squad at No. 517½ East Front street. Mrs. Carter, the landlady, was given 150 days and the girls three months each.

State's Case Falls.

Dr. T. Leung, Chinese, of No. 928 South Olive street, was found guilty by Police Judge Ross of practicing medicine without a license. He was prosecuted by the State Medical Board.

PENSION FOR SCRUB WOMAN.

Illinois Central Is the First to Place Her Box to Go On the Roll.

BY DIRECT WIRE TO THE TIMES.]

CHICAGO, May 22.—[Exclusive Dispatch.] Mrs. Mary Allen is the first woman ever accorded a pension by the Illinois Central Railroad, according to an announcement made today by the management.

Mrs. Allen was retired on account of incapacity to work. She now resides in Coronado, Cal. She entered the employ of the Illinois Central as a scrub woman and later became an assistant in the women's room in the Park Row station. She acted as matron in that station for twelve years.

FIGHT TO FINISH.

(Continued from First Page.)

When the committee met in Washington last December, Vice-Chairman John F. Hill of Maine was elected chairman to succeed Postmaster-General Hitchcock, and Victor Rosewater of Nebraska was elected vice-chairman. Subsequently Chairman Hill died, Vice-Chairman Roosevelt became acting chairman, and in the natural course of events the day following the national convention the election would devolve upon the latter. Mr. Roosevelt is a Roosevelt man. Col. New is a Taft man.

It is of the greatest importance to the Taft leaders that they have at the head of the national committee the chairman in order not to give a rallying friend of the President, but a man of nerve who can hold his own in case the selection of Mills Root for temporary chairman is contested by the Roosevelt forces in the convention.

President SPROULE OF SOUTHERN PACIFIC COMPANY OPIMISTICALLY IN INTERVIEW ON CALIFORNIA.

NEW YORK, May 22.—Claiming 570 delegates to the Chicago convention, or thirty more than enough to assure him the nomination, President Taft declared today he was going to New Jersey "to make assurance doubly sure." He will leave Washington for Philadelphia tomorrow morning and make his first speech at Camden.

"California will have a good crop out this year. The record will be equal to that of 1911, in spite of the fact that rainfall has been far below that of a year ago, and considerably below normal. The explanation is that on several occasions when drought was threatening the crops, particularly fruits, rain came if I may be permitted the expression, in the nick of time."

"Business sentiment in California aside from being affected by good crops, is very favorable, and the advance in the price of silver and copper, California depends for prosperity upon her crops, and mine products. With the above facts in mind, it is not hard to appreciate that the business outlook in the State is better this year than it was last. The lumber business has been dull, but with the increased activity in steel and iron works, the lumber products must inevitably strengthen."

"California's own need is the growth of population. Undoubtedly the Panama Canal will help in some degree to turn a larger tide of settlers into the State convention."

"This will constitute a clear majority in the national convention. In addition to the financial resources of mine made in Cleveland that night, the fight in Ohio my home State must be given credit. The result would be the decisive one," said the President in his statement, "and would settle the question of my nomination. This is true. I shall have at least seven more votes from Ohio, including those from the new districts, and have every assurance that we shall control the State convention."

"Business sentiment in California aside from being affected by good crops, is very favorable, and the advance in the price of silver and copper, California depends for prosperity upon her crops, and mine products. The result would be the decisive one," said the President in his statement, "and would settle the question of my nomination. This is true. I shall have at least seven more votes from Ohio, including those from the new districts, and have every assurance that we shall control the State convention."

"Business sentiment in California aside from being affected by good crops, is very favorable, and the advance in the price of silver and copper, California depends for prosperity upon her crops, and mine products. With the above facts in mind, it is not hard to appreciate that the business outlook in the State is better this year than it was last. The lumber business has been dull, but with the increased activity in steel and iron works, the lumber products must inevitably strengthen."

"California's own need is the growth of population. Undoubtedly the Panama Canal will help in some degree to turn a larger tide of settlers into the State convention."

"This will constitute a clear majority in the national convention. In addition to the financial resources of mine made in Cleveland that night, the fight in Ohio my home State must be given credit. The result would be the decisive one," said the President in his statement, "and would settle the question of my nomination. This is true. I shall have at least seven more votes from Ohio, including those from the new districts, and have every assurance that we shall control the State convention."

THURSDAY MORNING.

**EXTRA JUROR
NOW WANTED.***Thirteenth Man to Be Chosen
at Darrow's Request.**Special Venire Exhausted,
New One Summoned.**Odd Man May Be Chosen To-
day from Seven Talesmen.*

An effort to get a thirteenth juror for the trial of Clarence Darrow, accused of bribery, yesterday justified all the old number thirteen. The trial would have been well under way this time before a normal jury of twelve good men and true in Judge Hutton's department of the Superior Court, if it had not been for Attorney Earl Rogers' request that to prevent possible delays through the illness of any juror, there should be chosen an extra one, so that a dozen would listen to all the evidence in any event. The penal code permits this. Dist.-Atty. Fredericks interposed no objection, and Judges Britton allowed it. Then the trouble began.

When Judge Hutton took his seat on the bench yesterday morning, he remained just one place to be seated. To get that one man, a special panel of a dozen appeared, which was quickly sifted down to six by excuse that were deemed valid by the court. This left John L. Dingman, E. Kettler, Stephen Alden, John Walker, F. Sappington and J. P. Bell. A dozen was the limit he called. All agreed that the fact that Rogers is attorney for labor unions would not affect his judgment of the evidence one way or the other. He was formerly a deputy county clerk and a lawyer elsewhere. He has never labored, he said, but not with violent acts, and he knows a friend of Darrow, but said that this would not influence him. Dist.-Atty. Fredericks was present on a peremptory challenge by Attorney Rogers.

John L. Dingman of Monroe gave satisfactory answers to both sides and was accepted. He made that jury complete. It was then that Rogers made his move for an extra juror.

UNION MAN EXCUSED.

John Walker of 248 North Avenue, typewriter manufacturer, Clarence Darrow, who himself conducted this examination, that he would be willing to be tried, if he were Darrow, by a jury composed of men of the frame mind in which the talesman found himself. Questioning by the District Attorney brought out the facts that Walker is a member of the Carmen's Union, formerly employed by the Southern Pacific Company, but now out of work, and that Walker's son, William, is a member of the Teamsters' Union, also that Walker still believes the McNamees to be innocent of the crime of dismantling the Times Building and the numbers that resulted. He was nominated in the last city election. After recess he stated that he would not take the instructions of the court in the matter of circumlocution.

"I would not swear to anything I could not see," he said. "I would not swear to satisfy my own mind. I don't know anything about any other man."

After Rogers tried to find out whether the talesman really knows what circumstantial evidence is and got a direct and emphatic answer, "Yes," Walker was excused for the court and a jury.

BIGAMY CHARGE FAILS.

A letter was received by Justice Sumfield yesterday from Mrs. Jennie Rawlins of Los Angeles, Colo., in which she stated that she and her lover, William Rawlins, she would not appear against him here, when he was examined on the charge of bigamy. Consequently the Justice dismissed the charge. The defense had filed a motion to have the two women acquitted on appeal. Their answers were satisfactory, and the attempt to get a thirteenth juror was resumed with T. G. Morrison in the box. Morrison was uncommunicative, he said to the court, gained an impression, as to the case, gained by reading the newspaper, and this impression influenced him, said E. Kettler of Denver, who followed. He replied, and he had no impression in regard to the case, although he had read the paper. He came to California from New York in 1878 and was naturalized in 1884. The defense said that at his home Denver he was not known. T. P. Baldwin of Ardenia was certain he could not give the defendant a fair trial, he said, owing to what he had heard and read, so he was excused.

That finished the special venire and the judge ordered the panel still remaining in special session No. 1 to be brought into court. The first man was Hyrum Clark of Memphis, a rancher. "I consider lawyers a necessary evil," replied Clark to one of Rogers' questions. "I would not consider the testimony of a man who was testifying for the defense a worse match." Another of his answers is: "None." His son, Rogers, too, that he did not know. Dist.-Atty. Fredericks personally opposed him to oppose him in the campaign for County offices. He added that this would make no difference in the number.

DEFENSE OVERRULLED.

The defense remained on the spot, the number No. 1 left when Rogers announced that there had originally been thirty-three in that court and intended that they had just been examined in unison. The Times and that this was getting the stab end of the sword now, was called and examined the difference in the number. A lawyer in the chair then intervened by Amt. Dist.-Atty. Ford, was overruled.

Two men remained on the spot, the number No. 1 left when Rogers announced that there had originally been thirty-three in that court and intended that they had just been examined in unison. The Times and that this was getting the stab end of the sword now, was called and examined the difference in the number. A lawyer in the chair then intervened by Amt. Dist.-Atty. Ford, was overruled.

John L. Giddings, president of the Fundholders' Association, of the fundholders of Pennsylvania for twenty years, was excused when he employs non-union men in his business and has strong feelings against unionism, he said, and was asked to present against the defendant. He was excused.

Do you believe in trial by jury?

**LAST WISH OF
STRINDBERG.**

Swedish Author Wants No
Elegy or Music at His
Funeral.

(BY DIRECT WIRE TO THE TIMES)

STOCKHOLM, May 22.—(Exclusive Dispatch.) The will of August Strindberg, the Swedish author and novelist, who died recently, declared among other things: "I wish to be taken straight to the church and buried, not in the section allotted to the wealthy, but among the poor. There must be no music or songs, no panegyric, only the prayers of the clergy."

Was asked of E. Bert Morgan of Long Beach by Dist.-Atty. Fredericks:

"Well, yes, as there are, perhaps, was the reply. "But I sometimes think this entire jury would be a farce."

Morgan said there is no unionism in his business at Long Beach and he is prejudiced strongly against labor unions, but he could give the defendant a fair trial and the prejudices might be absolutely wiped out." But," he added, "I don't think it could." He was excused. So was Hugh McDonald, seventeen years a resident of California, a Presbyterian, whose health, he said, in answer to Judge Hutton, would not stand the strain of possibly two months' confinement on jury duty.

The thirteenth juror may be selected this morning from among these: H. F. Callahan, John W. Lawson, F. A. McCurdy, Lester H. Conn, Ernest Witham, Jacob Wheat and B. H. McKinley.

IN HURRY FOR SENTENCE?**TWO MEN ADMIT HAVING WRITTEN IMPROPER LETTERS—DISTRICT COURT CASES WILL BE HEARD IN FALL.**

In the United States District Court yesterday, George Erickson and John W. Davis, indicted for having sent obscene letters through the mails, pleaded guilty. They will be sentenced this morning.

The case of the government against E. G. Redman of the National Homeless Association, charged with having worked a fraudulent land scheme, using the mails, went over until September 17. It is alleged the National Homeless Association claimed 5,000 acres of land in the Antelope Valley, and had a number of persons to whom it ought to bring \$100 an acre. It is further said that the land in question is almost worthless.

Witnesses will be subpoenaed from all parts of the United States by the government. It is asserted by the defense authorities that the plan of the defendant and the corporation were almost nationwide, large sums of money having been received.

The case of the government against W. B. Hammers, charged with perjury in connection with a suit he entered in Imperial county, was set for October 1. This case was carried to the State Supreme Court by the defendant, on the advice of Justice W. B. Wellborn, executive a despatched case, was reversed by the court of last resort. It is expected there will be at least 100 witnesses from Imperial Valley when the case is heard by the court and a jury.

GOING AND COMING.

Going and coming. I noticed the arrangement for passengers leaving Los Angeles at the outer dock. There are no opportunities for checking baggage in Los Angeles and having it delivered at the dock, or for returning to the ship. I checked the ship's side and delivered in Los Angeles. I suppose that is due to the irregularity of the arrival of ships at the outer dock, and it will doubtless be continued as a reasonable arrangement, but it is an embarrassing and trying condition at present. There is also no decent road to the dock which prevented many Los Angeles people going in their automobile to meet friends who were on the ship.

The steamship *Savona*, belonging to the Oceanic Steamship Company, is a fine vessel, 220 feet long and 50 feet wide. It is in command of Capt. Trask. I asked him why he did not go to the inner harbor and he said that Capt. V. C. Pendleton of the steamships Yale and Harvard told him he would be unable to turn around. On the return trip, on arriving at the port, Collector Pendleton was there with his deputies and personally assisted in every way possible to facilitate

the arrival of the ship.

As soon as the capital is finished the ships of the world will come to Los Angeles harbor. Los Angeles harbor will be to the so-called "natural harbors" as a tailor-made suit of clothes is to one that is ready-made and with that great variety of business achievements—the Los Angeles Harbor, the Owens River Aqueduct, and the Panama Canal—all completed, Los Angeles will begin a development that will surprise the world.

Yours very truly,

WALTER LINDLEY.

Special delegate of the Los Angeles Chamber of Commerce to the Canal Zone, the Panama Republic, and the Republic of Guatemala.

BUREAU OF INFORMATION.
Room 600, 6th Street Spring street.

NEWS IN BRIEF.

Police Chief to Speak.
Chief Sebastian will be the principal speaker at the noon luncheon of the police association of Los Angeles, which will discuss some of the problems in the policing of a large city and the means for meeting the contingencies of the future.

Concert Tonight.

The choral section of the Teachers' Club, which will give its concert this evening at the First Congregational Church, will be under the direction of Mrs. Lewis trio and Mrs. B. F. Land, soprano, accompanied by Mr. Strobridge, organist.

Branch Pension Office.

F. W. Tuckerman, special agent of the state pension examiner, has gone to Colorado Springs for the purpose of investigating the pension office in that city. While he is away the local office will be in charge of A. L. Leonard.

Miss Yaw to Sing for Teachers.

Miss Ellen Beach Law will give a concert for the teachers of the public schools of the Peacock Hill High School auditorium, June 11 at 4 p.m. Miss Yaw's programme will consist of some of the exquisite lyric numbers for which she is famous, and she will be joined by some of the best musical talent of the city.

Negro Play and Players.

The historical play “Christophus,” written by William Edgar Easton, a negro, was produced before a good-sized audience at the Gamut Club auditorium last evening. The play, a drama in five acts, was written especially for negro players and all the members of the cast were of that race. Some very creditable work was done. The title role was taken by A. E. Hardesty, supported by a number of actors and actresses. F. W. Butler was stage manager.

For Temple Block City Hall.

Wide interest is manifested in the campaign of the Civic Center Committee for the construction of a City Hall on the Temple block. The question of building on that site will come up for a vote of the people at the election to be held next Tuesday. Improvement associations in every part of the city have taken up the cause of the proposed committee and organizations are displaying a keen interest in behalf of the movement.

Scouts Harming Charge.

The statement made by Gen. Lee, assistant secretary of the Chinese Protective Society, that Capt. Connell, local Chinese inspector, is harassing the members of his organization in their efforts to get rid of the Exclusion Act, brought out a storm of protest from the immigration office yesterday. Connell laughed at the charge. He asserted that in the first month of his tenure on the West Adams-street gardens in search of contraband Chinese, the records show that seven months elapsed between raids. A trial was made by the inspectors to the Chinese October 19 last, when five Chinese without residence certificates were captured; the next was on the 18th inst., when as many more were found. They were sent to Lay Corner-stone.

The corner-stones of the new \$10,000 High School to be built at Wilming-ton, will be laid tomorrow afternoon by Mayor Alexander. Elaborate preparations are being made. W. J. Travis, architect, and his wife, who are here to care will carry guests from the city, including Superintendent Francis and his deputies, and many other officials. The faculty and students of the Wil-mington High School will be present at the opening on the new High School grounds. C. H. Burkhardt, president of the Wilmington Chamber of Commerce, will have charge of the exercises.

OFFICIAL DEATH LIST.

BIRTHS.
Names, sex, place and date of birth.
DRYER, Mr. and Mrs. Herman, boy, San Pedro—Kingsbury, May 12, 1912.
FELANDRO, Mr. and Mrs. Joe, boy, San Pedro, April 17.
HEINZ, Mr. and Mrs. Roy F., boy, San Pedro, May 11.
HUNTER, Mr. Harry W., daughter-in-law, Mrs. Harry W., daughter-in-law, May 12.
PENCE, Mr. and Mrs. George W., boy, 40 Poland, Mrs. Martha, daughter, 15, West Fifty-fourth street, May 14.
WICKES, Mr. and Mrs. John, boy, San Pedro, May 14.

DIVORCE SUIT FILED.

CONLEY, Dolores against William J.

DIVORCE GRANTED.

GRAYSON, Walter A., from Grace G. Spencer, wife from Boston.

DEATHS.

With funeral arrangements.

ARMOTT, In this city, May 22, 1912, Flora R. Arnott, aged 82 years.

BERTELLMAN, Infants of Mr. and Mrs. Bertellman, died Saturday morning at St. John's funeral chapel, Indianapolis, Ind.

BRITTON, In this city, May 22, Mrs. Martha E. Britton, aged 60 years.

Rosenthal at Rosenthal & Co. will be taken to Denver for interment.

COADY, Mrs. John, died at her residence, No. 16 North Figueroa street, Pasadena, Cal., A. V. Cade, manager of the Standard Oil Company, and 25 years.

FERNALD, At No. 265 Edwin street, May 22, Mrs. Marie W. Copland, aged 16 years.

Mother of Pierre, Josephine Louise Jeanette Fernald, and sister of Mrs. Frank Fernald, died at 10 o'clock last night.

FUNERAL services will be held at the chapel of the First Presbyterian Church, 200 South Figueroa street, High-ridge, at 10 a.m. Interment, Calvary Cemetery.

HORN, Mrs. John, died at 10 o'clock last night.

Remains at St. John's funeral chapel.

SHERWIN, At No. 170 West Thirty-seventh street, May 22, Mrs. Gran Sherwin, aged 40 years.

Remainder at Bruce Brothers. Notice of funeral later.

STACY, At Hollywood, May 22, 1912, Mrs. Lotte Platz Stacy, beloved wife of W. H. Stacy.

Funeral private, from residence, No. 70 Hawthorne avenue, Hollywood, Saturday, May 22, 10 a.m. Interment, Hollywood Cemetery.

STOCKTON, Harry Stockton, deceased at Bruce Brothers, Chapel, No. 225 North Figueroa street, Thursday, May 22, 1912. Funeral services will be held at the Hawthorne Avenue Cemetery.

UNIDENTIFIED, At home, 1912, Mrs. Edward Wood, beloved husband of Besse and father of Helen and Mrs. Underwood, son of Carl Underwood, and Mrs. H. Phillips.

They were actuated

by women of Hollywood who further accused the Japanese of maintaining a servant and general labor monopoly, and harassing women.

BREVITIES.

Handsome white rug, high-grade furniture of a ten-room residence No. 2000 Vermont St. Will be sold at auction Thursday, May 24, 1912, at 10 a.m. C. M. Stearns, 2645 Main 42nd.

Dr. Stevens, dentist, oldest office in city. Bridge work, crowns, filling that can't be detected. No. 412 Langhamish bldg., cor. Third and Spring.

We apologize your watch to be repaired from a chain. Elmer's Jewelry Company, No. 180 S. Broadway.

The Times Branch Office, No. 112 South Broadway. Advertisements and subscriptions taken.

Angelus ostrich plumes, 447 S. Broadway. Fully remodeled. D. Bonoff, 447-B.

Hints Undeclared.

The charge against L. J. Christoper, confectioner, that he violated the pure-food law by coating candy with wax, was dismissed in Police Judge Chamber's court yesterday upon the men agreeing to take out permits. The complaints were sworn to by H. H. Lyon of the State Labor Board and H. C. Phillips, state pure-food inspector. They were actuated

by women of Hollywood who further accused the Japanese of maintaining a servant and general labor monopoly, and harassing women.

Promises to Be Kept.

The complaints against K. Ito and Z. H. Toribuchi, charged with conducting gambling games without license, were dismissed in Police Judge Chamber's court yesterday upon the men agreeing to take out permits. The complaints were sworn to by H. H. Lyon of the State Labor Board and H. C. Phillips, state pure-food inspector. They were actuated

by women of Hollywood who further accused the Japanese of maintaining a servant and general labor monopoly, and harassing women.

WHAT'S IN A NAME?

Constables Levy On Bull Even if Attachment Papers Call for Besiege. Proprietress Protests.

Whether a bovine of the male persuasion may be named Besiege and still retain the respect of the remainder of the herd of Mrs. Jane Doe Starner of West Pico street is a question which Justice Forbes may be called on to decide.

Mrs. Starner lives in the county at the end of West Pico street. Frank D. Woodford, on May 7, received judgment for \$150, for pasture services, against Mrs. Starner in Justice Forbes' court, and yesterday Deputy Constables Borden and Enz reported to the small ranch to levy an attachment upon Besiege, Queen, Josephine, Jessie, Frances and Jane, the only cattle mentioned growing up on the Starner ranch. The names of the cows were mentioned in the complaint.

When the officers arrived at the Starner place, they found, not six cows, but five cows and a bull. Now they had orders to corral six ruminants, and after Mrs. Starner protested that the six cattle were all she had, they dubbed the bull Besiege and let it go at that. Mrs. Starner reported, however, that Besiege was left as valet to the herd while Enz reported to Constable Hayes. It developed upon Borden to do milking for the first time in his life last night.

Pawnbroker Fined.

Sam Gold, pawnbroker, pleaded guilty in the Police Court yesterday to doing a second-hand business without a license. Some weeks ago Gold was fined \$100 for violating the pawn-brokerage law by giving a bill of sale instead of a redeemable pledge for an article. Justice Ross dismissed the case, remarking: "That is the neatest evasion of the law that has come under my observation since I have been on the bench."

All on the Wagon.

For the first time in his judicial career, during trial week, Police Judge Frederickson yesterday didn't have a drunk before him. The justice was so surprised when he looked over the complaints and saw none for intoxication, that he commented: "Well, that's quite remarkable."

VITAL RECORD.

MARRIAGE LICENSE.

The following names were issued yesterday. Name and age given.

CARTER—LATERPOLFO. Nick Carpenter, 21; Barbara Schubert, 21.

Warning elements in the labor unions of the State are at loggerheads over the advisability of endorsing the I.W.W. right at San Diego and adding the strength of the unionists to the already desperate struggle. O. A. Tveitmo, Anton Johansen

**FLOURY MISSIVE RAISES
FLAPJACK BRIDEGROOMS.**

ONE soft, warm romantic day in May, 1911, Miss Rose Sarrasin, a dark-eyed employee of a Los Angeles flour company, scribbled her name and address on a brown piece of paper and placed it in a two-pound box containing California flapjack flour.

Rose didn't know where the box was going, or who would find the little brown paper note. She was in search of romance and a real silver-framed hero, she told her girl friends. She just knew that somewhere was a man who loved his stack of hot cakes—and pretty dark-eyed maidens.

Month went by and Rose had about decided that there was no such thing as a silver-framed hero, at least not a boy who had the right romantic temperament. In order to be perfectly sure, however, she placed her name and address in a hundred flap-

jack boxes and waited. Almost immediately the postman called at her home, No. 2335 Enterprise street, and found a note from a bachelor in Kansas City, stating that he had found her name and address in a flapjack box.

He gave his age, financial rating and his pilgrimage from the Mayflower. Since that time Rose has been deluged with love missives from lonesome males in all parts of the country, all of them lovers of the hot cake.

Yesterday afternoon the door bell at the Sarrasin home rang and Rose answered. A long, lean, lanky man with sandy hair and blue eyes was standing on the front porch.

"Is Miss Rose Sarrasin in?" he inquired.

"That's my name," said Rose.

"Well, I'm certainly mighty glad to meet up with you," drawled the

(Continued on Ninth Page.)

STILL A DEEP MYSTERY.

Although Woman Is Ready to Bury Drowned Body as Her Husband, Detective Is Skeptical.

The identity of the bound and weighted body of a man found early Sunday morning floating in the inner harbor near the Salt Lake wharf, has not been established.

Detective Boyd, who is doing the field work on the case, said yesterday he is positive it is a case of suicide, and that it is impossible for the remains to be those of Bernard Rein, metal worker, No. 1309½ Sante street, who is missing. Despite that fact, the San Pedro authorities said Mrs. Rein has expressed a willingness to bury the remains as those of her husband.

Detective Boyd believes that the body may be that of a missing Oakland business man, named Herrick. The Bay City authorities have been asked for information concerning the man, which is expected today. When it arrives it is hoped there will be little difficulty in either establishing Herrick's identity or showing that the body is that of a man.

In the event the mystery will be no nearer a solution than it was the morning the body was found.

Not Yet.

and other leaders of the laborites are following the course of the San Diego gang, but others refuse to have anything to do with them.

Several weeks ago a committee of local labor union leaders, including Stanley B. Wilson, L. W. Butler and others visited San Diego to investigate conditions. They reported against the Los Angeles Labor Council in favor of the I.W.W. Now Tveitmo and Johansen have come to the front, with denunciations of Wilson and the San Diego members of the committee and have started a movement to oust Wilson from his position as editor of the local laborite organ.

Whether to aid the I.W.W. movement or to maintain a neutral position will be the question at all the meetings of local labor unions at Labor Temple for the next week.

RALLYING HERE. The 51,000 votes cast for Job Harriman, Socialist candidate for Mayor last December, has resulted in this city being selected as the headquarters of the I.W.W. organization. Immediately upon the result of the election being known Vinton St. of Chicago, author of the I.W.W. and his colleague, William D. Hayward, sent scouts to Los Angeles to spy out the land with the object of making this city the rallying point of the revolution.

A month ago it was announced that 200 I.W.W.'s would gather in Los Angeles and leave for the south as soon as possible. The last of that contingent, consisting of twenty-seven, left this city Wednesday morning at 3 o'clock. They hope to be in San Diego by Saturday night.

When the movement to San Diego began three months ago, the "army" made the trip along the track of the Santa Fe to Oceanside, then Del Mar and thence by road to San Diego. But with their real object being known, the crowd now avoid Ocean side, Del Mar and San Juan Capistrano, making a detour through the mountains. The route now taken by the crowd is by a trail in the back country to San Luis Rey, thence by road to the oil section; thence to what is known as the mountainous point east of Del Mar, thence through the hills entering San Diego from the east and southeast. The authorities of the Santa Fe now have a force patrolling the line of the entire distance between the San Diego and the Orange county lines. Much property has been destroyed and the railroad is taking vigorous measures to protect itself.

GOOD-SIZED ARMY. Since the beginning of the march to San Diego, nearly 200 I.W.W.'s have sailed from San Pedro, a few paying their way, others having been between tracks or traveling their way, where there was no chance to successfully hide out. Officials of the Santa Fe and the Southern Pacific, who have kept close tab on the pilgrims, state that not less than 1200 men came south over the lines, and it is believed that they are all now in San Diego. Advice from Denver, Ogden, Cheyenne, Colorado Springs and other points assert that the strikers at Lawrence and other

THROUGH NIGHT.****ONLY WRECK HALTS MAD FLIGHT
OF JOY RIDERS.**

**Flight from Deputy Sheriffs, Who
Shoot at Tires—Distance Purse,
Only to Collide with Another
Machine—Driver Escapes, Owner
Goes to Jail.**

Driving at a speed estimated at ninety miles an hour in an effort to escape from deputy sheriffs shooting at their tires, Benjamin W. McRae, a wealthy real estate operator, lived at No. 415 Manhattan place, and Barney Bristow, a chauffeur, narrowly escaped instant death last night, when their machine was completely wrecked at Sixth street and Occidental boulevard as the result of a collision.

Owing to the great speed at which it was running, the automobile was hurled into the air and after turning a somersault landed upside down on the pavement, a mass of wreckage.

Protected by the good luck which is supposed to accompany merrymakers, both Kirktridge and Bristow were thrown from the machine before it turned turtle, thus escaping with their lives.

Kirktridge sustained a broken shoulder when he fell in the street, but as his chauffeur immediately ran away, the police were unable to ascertain how seriously he was injured.

It is not certain that his legs are uninjured.

According to evidence obtained by Patrolman Walker and O'Hearn, both Kirktridge and his companion had been to the beach earlier in the day, driving along the coast road west of Santa Monica boulevard and 8th street, when the attention of the county speed officers was called to the fact that they were exceeding the limit. Disregarding the command to stop, Kirktridge's machine tried to pass through the intersection at 8th and 8th, and allowed his machine to attain a terrific speed, soon distancing the pursuers.

GUNS ARE USED.

The auto speed men then resorted to their arms in an effort to blow a hole in one of the tires, but in this they were unsuccessful and the Kirktridge machine was lost to view.

Without diminishing the speed of the auto speed men, the Kirktridge machine driver tried to turn and get away, hard work and think I am entitled to a rest." This was said in an inquiring tone, but the multi-millionaire did not wait for an affirmation of his statement.

"Have you worked long hours?" was asked.

"Good heavens, have I!" said Mr. Huntington, and he looked thought-

where he has been for the last four months, that he has now retired absolutely from active business operations.

And just as the multi-millionaire railroad man started congratulating himself up stepped the City of Los Angeles and demanded that he cease retiring, a few minutes at least, and place himself in his great street railway properties.

The first question that was fired at Mr. Huntington as he was seated comfortably in the chair of his son, Edward, at Oak Knoll, was this:

"What have you to say in regard to the negotiations of the municipality to buy the Los Angeles street railway?"

"I don't know anything about the offer of the city," said Mr. Huntington, in his most pleasant manner.

"But if the city makes you an offer, will you accept it?"

"The offer came with the direction that it characterizes all of Mr. Huntington's business dealings."

"I don't believe the city would pay the price asked, but I am not sure. And that seemed to be pretty decisive."

There is a difference in price between what the city would possibly be willing to give and what Mr. Huntington might be willing to take of \$15,000,000, according to persons well informed in traction matters.

It is understood the traction magnate received an offer of \$12,500,000 for the line some time ago. He is virtually

2 THURSDAY MORNING.

Los Angeles Daily Times

MAY 23, 1912. [PART II]

Public Service: City Hall, Courts.

SUMMARY OF THE DAY.

The plant of the Board of Public Works for a new route to the water front was made public yesterday. The route will run from the Wilshire-San Pedro road on Fourth street, to Front street, to San Pedro street, to the intersection with Fourteenth and San Pedro streets, and on the latter street to the harbor.

The Police Commission yesterday adopted a resolution calling upon all saloon-keepers to assist the police department in enforcing the law and requiring them to give information about disreputable or questionable characters visiting saloons.

The Mayor yesterday signed the contract between the municipality and the Sixth District Agricultural Association, whereby the city acquires the use of Exposition Park.

The Police Commission yesterday received the wholesale liquor license of Cottino & Cottino, on the grounds that the firm had been illegally furnishing liquor to a "blind pig."

A Superior Court judge made short work of the case that was transferred to his department yesterday, discharging the attorney for the plaintiff and dismissing the suit when he found it wasn't being prosecuted with enthusiasm.

At the City Hall.

HARBOR ROUTE MADE PUBLIC.

PLAN OF WORKS BOARD TO REACH WATER FRONT.

Includes Road Down Fourth Street to Front Street, Then to Beacon Street South to Fourteenth Street, and Southeasternly on San Pedro Street to Huntington Concession.

The plan of the Board of Public Works for an auto-truck highway to the Huntington concession, to take the place of the Pacific Avenue route urged by the initiative petition now before the people and to be voted on at the special election Tuesday, was made public yesterday. It shows a shorter route to the water front than the Pacific Avenue proposition and members of the Board of Public Works declare that its cost will be no much less than it should command itself to everyone.

The route from the city proper will remain the same as has been planned and the contracts for part of which have been awarded to Wilmington, thence around the tidelands to San Pedro, as projected in the original plan. The new route would pick up this road at Fourth street, thence a short block to San Pedro street, then on Beacon street to its intersection with Fourteenth and San Pedro streets and southeasterly on San Pedro street to the Huntington concession.

Present contracts provide for the road around the tidelands to the point where the new plan begins. The first 100 feet of the new route, including the route between Fourth street and the present termination of the Wilmington-San Pedro road, is a portion of that included in the concession plan. In connection with Commissioner Humphreys' statement yesterday that this portion of the concession proceedings can be cleared up within two weeks, the extension of Beacon street for a distance of 320 feet, with a maximum cut of twenty-four feet, better than a 5 per cent grade can be secured, and at the intersection of Fourteenth and Beacon street, cut of six to six feet will obtain better than a 4 per cent grade on San Pedro street, and that may be found to be only a 3% per cent grade, depending about the desired easiest grade from the water front for loaded vehicles.

The general plan provides for the asphalting of the entire route, in so far as possible, on the water front strip. The Pacific Electric has a track on Beacon street and it would have to be responsible for the paving of that portion of the street. For the steeper grade blocks would be used.

This plan provides for the change in grade on only two intersecting streets—Eight and Ninth—back for a distance of about 100 feet.

Commissioner Humphreys stated last evening that he is certain the proposed improvements can be accomplished for less than \$50,000, and will be recommended by Engineer Hamlin this afternoon, when the Board of Public Works will make its report in detail to the City Council and the Harbor Commission.

SALOONS MUST HELP.

CO-OPERATE WITH POLICE.

The Police Commission yesterday adopted resolutions, copies of which are to be mailed to every holder of a license or permit to sell liquor, in which all are notified that the practice of purchasing personal property or receiving it in exchange for a permit, in connection with the conducting of the business of liquor selling, will be regarded hereafter as sufficient cause for the revocation of licenses or permits, and that the duty is imposed upon all retail liquor establishments of assisting the police department in enforcement of the law, whether called upon to do so or not, and that the police department, as well as the department of health, should be aware of their establishments attempting to sell or pawn personal property, or who are other reasons why the department should be aware for the purpose of protecting the public.

Chances for Jobs.

The Civil Service Commission on June 15 will hold examinations in the following positions in the municipal service: Messenger in the water department, \$40 per month; mechanic in the playground department, \$40 per month; messenger in the fire department, \$45 per month; stenographer (male) in the aqueduct department, \$75 per month; blacksmith in the street department, \$35 per month.

Would Head Bureau.

Six applications have been made to the Mayor for appointment as chief of the newly-created bureau of fire marshals and inspectors. Mayor signed the ordinance providing for this bureau yesterday. Applications on file include those of L. E. Story, an electric and medical engineer; W. H. Hart, a construction engineer; for the Llewellyn Iron Works; D. Hardy of Inglewood, an employee of the Santa Fe Railroad, and James M. Morris, formerly a foreman in the fire-alarm department of the city. Two verbal applications, in addition to these, have been made, and Paul

Court's Innovation.
THAT THEY MAY SEE FLAG OF THE FREE.

The American Flag Above the Bench.
Judge Willis and his object lesson to naturalization applicants yesterday.

Judge Willis and his object lesson to naturalization applicants yesterday.

A SILENT rebuke to I.W.W. lawlessness and an object lesson to possible anarchists as well as others seeking citizenship, a large American flag was hung on the wall of the Superior Court of Los Angeles yesterday when a class of twenty-one was examined for naturalization papers. This is the first time in the history of the Superior Court of this country that Old Glory has been displayed in a courtroom, and it was so universally commanded that Presiding Judge Willis gave orders to have it hung every Wednesday—naturalization day.

The route between Fourth street and the present termination of the Wilmington-San Pedro road, is a portion of that included in the concession plan. In connection with Commissioner Humphreys' statement yesterday that this portion of the concession proceedings can be cleared up within two weeks, the extension of Beacon street for a distance of 320 feet, with a maximum cut of twenty-four feet, better than a 5 per cent grade can be secured, and at the intersection of Fourteenth and Beacon street, cut of six to six feet will obtain better than a 4 per cent grade on San Pedro street, and that may be found to be only a 3% per cent grade, depending about the desired easiest grade from the water front for loaded vehicles.

Two verbal applications, in addition to these, have been made, and Paul

they. The Playground Commission will meet this forenoon, and will adopt definite plans for the improvement of the forty-two-acre tract. It is to be graded and water is to be piped to it; ball grounds, tennis courts are to be constructed, and numerous other improvements made as soon as the contracts for the work can be closed.

CITY HALL BREVIET.
The Board of Censors of Moving Pictures yesterday recommended that graduated license fees be required from picture theaters, based upon the seating capacity of the houses.

The Pacific Telegraph and Telephone Company yesterday appealed to the commissioners of the city officials that the city be allowed use of the company's poles for the proposed new fire alarm and police signal system.

Chief of Police Schmalz yesterday addressed a letter to Police Commission, suggesting the advisability of limiting the number of chairs to be allowed in poolrooms, in order to discourage the general loafing in such places. He was asked to work out the idea.

The City Attorney has decided that persons practicing massage and giving baths as they are called, throughout the city, and with no fixed office, are not to be required to pay a permit license, but must secure a permit.

The Police Commission yesterday gave permission for the transfer of the license of the Southern Saloon from No. 249½ North Main street, to No. 302 East Fourth street. G. H. Schill was given a restaurant liquor license for No. 306 South Spring street.

A. K. Mills of No. 219 East Fourth street, Little Rock Ark., has written to the Mayor asking assistance of the municipal authorities in locating his brother, John H. Mills, who was last heard from in this city. Mills describes himself as about five and half feet in height, weight, 150 to 160 pounds; dark hair, fair complexion and blue eyes.

The Mayor yesterday stated that he has been unable so far to select an appointee for the vacancy on the Public Utilities Commission, made by the resignation of C. E. Warner, and that at present he has no one definitely in mind for the position.

At the Courthouse.

EXIT ATTORNEY, LIKESUIT.

PLAINTIFF NOT ANXIOUS, SO JUDGE GETS BUSY.

Lawyer for Plaintiff Objects to Being Ousted, But He's Let Down Gently Anyway—Baillie's Rotund Form Restores Peace After Brief Altercation.

Judge Wilbur made short shrift of a case which had been transferred to him yesterday. First of all things were gone, he saw that Mrs. M. Gilbert was not anxious to press her suit against the National Union Fire Insurance Company, and on her application he discharged her attorney, M. G. Solomon, and dismissed the case.

The action was to recover a policy of \$250 taken out on a stock of lumber at No. 164 Temple street. The stock was destroyed by fire September 25, last, and it appears from the statement of Attorney Layng, representing the company, that Mrs. Gilbert signed a release for \$550.

Solomon aroused Layng in his opening argument, and the latter responded to it and asked if there was any thing in the complaint which he did not know what it represented. The hand-clapping rippled out like the crackle of musketry, and the faces of dark, foreign-looking men lighted up with enthusiasm.

A burst of applause rang out as Judge Wilbur pointed to the flag seventeen of the class had adopted as their own to defend against its enemies.

The flag was also applauded when Special Examiner Jones called attention to it and asked if there was any thing in the complaint which he did not know what it represented. The hand-clapping rippled out like the crackle of musketry, and the faces of dark, foreign-looking men lighted up with enthusiasm.

Judge Wilbur, however, proceeded to sever the bonds on the application of Mrs. Gilbert, and, reciting from her statement, the case dismissed.

operators, and a number of wells
will be brought into the producing
order.of the thirty wells quite a number
are down close to the sands con-
fined as productive. The Orange has
a well that should be brought in
in the next few weeks. There is a
new gas producer in its well No. 2,
and the company is trying to hold it
in control until the depth reached in
the Morris or Birch well is secured.
Then this well is expected to be a
producer.The Fullerton and Brea Canyon
companies have wells drilled to con-
siderable depth. The Brea Canyon
has just brought in a 350 barrel well.
The Fullerton is expected to bring
it in within the next two months, or
less.During the summer the Standard,
according to reports, will have at
least two wells in the producing col-
umn in the Fullerton field. The Triarte,
which has been held in abeyance, has
again been commenced, this time suc-
cessfully. It is believed. It will be
brought in for three weeks.The Toler and Leffingwell each is
down to the oil sands and one of
them has a second well drilled this
summer. The Stern and Gorman well
is about 3500 feet in depth and the
prospects are good. All these wells
are in new territory more im-
portant to them than to
others as to the results.Over in the Murphy territory, the
Murphy people have a promising well
which should be completed within six-
ty days. The Standard to the south is
about 1200 feet in Emory well
No. 1 and about 1600 feet in Emory
No. 2.The Petroleum expects to complete
its first well before the middle of sum-
mer and has a second well drilling.The Amalgamated struck a stratum of oil
at 1200 feet. It is believed to be
a shaly formation, as nothing similar
has been encountered to date.With the completion of a number of
wells in the Fullerton field this sum-
mer will continue the great deal of
activity in pipe line construction.The general situation in the oil dis-
trict south of Los Angeles is con-
sidered a most satisfactory nature.

Dodge On West Side.

The April production of the National
Pacific was 9471 barrels, or about
the same as last during March.The decrease was due to wells No. 1
and No. 2 in section 23 being off pro-
duction while undergoing repairs. WellNo. 1 was put on the pump several
days ago and No. 2 stands ready to re-
commence.The National Pacific has rejected all
but one of the wells No. 4 in section 20
because they were considered too
dry. The company has decided that
they will be drilled on company ac-
count with cable tools in 100 days at
a cost of \$3000 less than the lowest
bid received.The last assessment of the National
Pacific was paid on 25th April, amounting
to \$1000.There is still outstanding \$100,000 in
shares of Consolidated Mid-
way stock that has never been ex-
changed for National Pacific stock.This stock, however, is held by the
company and is not available for

Los Angeles (Loc Ahng-hay-lis).

Listed at the Post Office as small matter of Class 1.

HAPPY DENVER.

By electing another man Mayor Denver seems to have at last broken the strangle hold of William Speer, from whom he has suffered much. As a practical politician Speer plays without a limit.

PLAYING SAFE.

Vernon and Los Angeles had better slow down or one of them will win the pennant. This would be a disaster, because the big leagues of the East would instantly draft our star players. It is one of those difficult situations where to win is to lose.

A GREAT DAY.

Everybody should get ready to join the old soldiers in the celebration of May 26. The time is not distant when Memorial Day must be observed without the presence of any of those fine old gentlemen and soldiers whose heroism brought it into existence.

DANGEROUS.

Congressional legislation to prevent sale of liquor in the prohibition States is recommended by the general assembly of the Presbyterian church. Perhaps the gentlemen of the cloth do not realize that if they try to inaugurate the sort of prohibition which prohibits, the public will stop voting for it. A local instance of the joys of doing prohibition is the arrest this week of a number of persons at the arrest of a charge of conducting blind pigs and of patronizing them. The same community does this probably wouldn't buy half as much liquor from the open saloon.

LONG SUFFERING.

In order to accommodate street schemes the City Council has changed the names of 113 streets and avenues in recently-annexed territory in the west and northwest. This means that the mail carriers will have a sweet time in getting acquainted. If any gentleman living on any one of these streets finds it impossible to get home until very late at night for a short time he will have the excellent excuse of not being sure of the street on which he lives. It might save much domestic confusion to have all streets changed at regular intervals and have the houses renumbered as well.

THE DEADLY AMATEUR.

An Ohio man who had purchased an easel, but who had not perfected his apprenticeship, had the courage of the fool when he stole the keys to the hanger and made a flight for which he was unprepared and which resulted in his death. It is right to dare when one knows the way. The possession of the thought form by which favorable combinations are made is a reasonable guarantee of results. Wisdom lies in living by rule. Demonstration is easy in the face of reliable formulae. Successful living is in knowing how. When each man does only what he knows how to do, the world chance, fate and circumstances will be eliminated from human speech.

MAKING SURE.

An English lady sued her American husband in four cases for separate maintenance, or rather she brought four separate suits in one case. One is left in doubt as to whether the lady is so large that she thought her husband is so small that it takes four suits to loosen him up. Anyway, the poor gentleman was scared to death and capitulated without permitting the suits to come to trial. His motives may have been entirely charitable toward his wife. He probably figured that by the time she had paid her lawyers for the fees in four cases she would still be in deeper circumstances if she won them all.

THE HOUN' DAWG PLATE.

The "progressives," the Democrats and the Socialists all appear to agree on the proposition to limit or take away altogether from courts of equity the power to wield "the right arm of equity," as the writ of injunction has been designated. The Democratic argument in this behalf, as stated by Champ Clark, is that, if the party enjoined has a right to do what he was going to do, then he ought not to be enjoined. If he has no right to do it, then he can be punished or made to answer in damages for doing it, and therefore he ought not to be enjoined.

One can imagine the promulgator of this ad captandum argument retired after the Presidential election to a lucrative law practice in the State of "houn' dawg" and "show me." A client approaches him and says, "Keurnsel, there is a big tree close to the line fence in my front yard. It was planted by my father nigh onto forty years ago. Sam Thompson, who owns the land next door, has built a house close to the line and he claims that my tree shades his parlor windows. I reckon it does, but my tree was there long before Sam built the house. He says if I don't cut the tree down before Saturday night he will come there with his hired men and cut it down himself. What can I do about it, keurnsel?"

"Well," ex-Speaker Clark will say, "you get a good witness and you forbid Thompson to touch the tree, and if he persists and cuts it down, you come to me and I will sue him for you and get heavy damages." "But keurnsel," the client would reply, "I don't want no damages. I want my tree. Can't I get the sheriff to go there with a writ and serve it on him and sing, 'Woodman, spare that tree' to him?"

"Oh, no," the ex-Speaker would say, "that won't do at all; that would be a violation of Democratic principles. That

NATIONAL SOCIALIST CONVENTION. The national Socialist Convention, which was held last week at Indianapolis, adopted a platform made after the plan of old-fashioned crazy quilts, where fragments of gowns are patched together until a bed covering is made so unique and diversified in color, pattern and fabric that the sleeper who wakes when the moonlight is shining on his coverlet does not know whether he is dreaming or has an attack of delirium tremens. The convention ignored the tariff question, so that the fifteen Socialist Congressmen who will be elected—so stay at home—will be at liberty to vote with Champ Clark for a tariff for revenue only, or to stand with Uncle Joe Cannon in favor of protection to American industry.

With respect to labor unions there was an acrimonious contest between the friends of the American Federation of Labor and the representatives of the Industrial Workers of the World. It was finally settled by the convention endorsing both the economic and the Socialist movement upon the broad basis that the Socialists should only work in "collective commonwealths," where the means of production were owned by the Commonwealth and the I-Won'-Workers should not be required to work at all. Job Harriman said that six of the committee had signed the report because it was the only one they could conscientiously make, and the other six had signed it because they knew that the convention would not favor any opposition to it, and they deemed it to their best interests to get into the band wagon.

The promises of the convention were numerous. They pledge the Socialist party: 1. To promote the revolution "which marks the transition from economic individualism to socialism, from wage slavery to free co-operation, from capitalism to guildocracy to industrial democracy."

2. Collective ownership of railroads, wire and wireless telegraphs and telephones, express services, steamboat lines and all other means of transportation and communication, and of all large-scale industries.

3. Immediate acquirement by municipalities, the State or the Federal government of all grain elevators, stockyards, storage warehouses and other distributing agencies.

4. Collective or government ownership of mines, quarries, oil wells, forests, water power and banks.

5. The collective ownership of land wherever practicable, and in cases where such ownership is impracticable, the appropriation by taxation of the annual rental value of all land held for speculation or exploitation.

The platform further demands "the shortening of the work day in keeping with the increased productiveness of machinery;" that no man shall work more than four and one-half days in the week; that children under 16 years of age shall not work at all; that the products of child labor, convict labor and of unsupervised factories and mines shall not be transported; that the profit system in government work be abolished by substituting either the direct hire of labor or the awarding of contracts to cooperative groups of workers; that minimum wage scales be established.

Monopoly ownership of patents to be abolished and collective ownership to be substituted with direct rewards to inventors by premiums or royalties.

The platform further calls for the abolition of the power "usurped" by the Supreme Court of the United States to pass upon the constitutionality of acts of Congress.

The adoption of initiative, referendum and recall by the nation is demanded, as also an amendment of the United States Constitution by a majority of the voters. Curbing of the power of the courts to issue injunctions is called for.

Free administration of justice is required.

Finally the convention declares: "Such measures of relief as we may be able to force from capitalism are but a preparation of the workers to seize the whole system of government, in order that they may thereby lay hold of the whole system of socialized industry and thus come to their rightful inheritance."

Even the most optimistic of Socialists will be of opinion that his party has "bitten off a good deal more than it can chew." That Socialist will, however, be hard to please if he can not find in this platform one or two bites to his liking, and he will probably swallow what he doesn't like in order to secure what he does like.

Fortunately for the country the common sense of its people is not yet impaired. There is no more danger of socialism prevailing than there is of the sky falling so fast in four cases she would still be in deeper circumstances if she won them all.

There is a deal of wisdom in the decision of the National Republican Committee not to allow double delegations with half a vote each in the Chicago convention. The halfvote would not settle anything, but would only rob the States and districts making a contest of any voice in the choice of a nominee. Contestants are either right or they are wrong, and the committee shows strength in refusing any weak and indefinite compromise. One far-reaching effect of this decision will be to leave the bolter no loophole of escape. The candidate who bolts this convention will do so on his own responsibility and at the peril of himself and his party. Every true partisan will welcome the open issue.

THE GAME IN FRANCE.

Paris is struggling with the boxing game without any great degree of success. They have made the alarming discovery that boxing is not always as harmless as dueling, and in their efforts to reduce it to the same bloodless status they are spoiling the game. They have passed a new law forcing boxers to wear larger and softer gloves and to fight only within heavily-padded rings so that, if one of them happens to be knocked down, he will not crack his tender cranium upon a resisting and unyielding floor. It seems to us that the French have overlocked a delicate and important point in not forcing those who do not wear a complete armor of steel. The chance of being hurt at boxing is too great to expect that it will supplant the French duel with swords. The cheerful American habit of telling an antagonist with a clenched fist is far more sportmanlike as well as more effective than the artificially-arranged affairs of honor pre-arranging abroad.

Aye, Aye, Sir!

ROBERT BROWNING.

By G. K. Chesterton.

The whole fate of Browning in letters depends upon the battle which is still going on between Browning and the Browningites. If he conquers he will live; if his admirers conquer he will certainly die. The Browningites are out to destroy Browning exactly as the Baconians are out to destroy Shakespeare. And they do it by the same method—searching and quite well-educated method—by turning a poem into a puzzle.

A puzzle is very delightful thing; that is why it is the method used; that is why Satan finds some mischief still for Baconians and Browningites to do. But it is utterly impossible to combine the pleasures of a poem and a puzzle. A puzzle is a sentence of which you have got all the words, but do not know the meaning. A poem is a thing of which you know the meaning without always understanding it.

Now the permanence of Browning will simply depend upon whether he can go down to posterity by reason of having written a number of extremely good poems—of extremely poetical poems.

His puzzles will not interest posterity—poor old posterity will have puzzles of its own. The right way to preserve the real reputation of Browning is frankly to throw over a great mass of his work; as, indeed, he has thrown over a great mass of the work of Byron, Shelley, Wordsworth and Coleridge—for though they say that Coleridge wrote too little, he wrote a lot more than we can read. As Byron had his blackguard affectations, Shelley his unconvincing and even inhuman theorizing, Wordsworth his painful plans for being unpoetic on principles, Coleridge his idleness, his opium and his endless talk—so Browning also had his own little way of wasting the power of genius. His way was to descend into depths of pedantry and didacticism and his strength in struggling with them. He deliberately made himself small—like Alice in Wonderland. He was not only a detective looking through all the keyholes; he wanted to get through the keyholes.

But there are disadvantages in turning into an ell; and the genius of Browning became small till it became invisible. The most enormous and complicated of the later movements of Browning, the almost all devoted to characters who in the common way, in which we speak of personalities, were not hard to fight the little as the large; and Browning obeyed a really romantic impulse in thus contracting himself for a conflict with tiny things. Fighting giants is more difficult than fighting pygmies; but equal terms Browning refused to become a pygmy and did not try to become a giant; and, in fact, he was a queer little topic. He entered into a microscope to fight microbes. All this is as hard to fight the little as the large; and Browning obeyed a really romantic impulse in thus contracting himself for a conflict with tiny things. Fighting giants is more difficult than fighting pygmies; but equal terms Browning refused to become a pygmy and did not try to become a giant; and, in fact, he was a queer little topic. The Staff.
"The Virginian"
HOLDING FAVOR.
ONE IN FAVORITE PART FOR
ANOTHER WEEK.

"Johnny Jones" By Fischer
comes Next Week—"Peg o' My
Heart" Premieres Next Sunday Af-
ternoon—Vanderbilt and Other An-
nouncements.

The return to the Belasco of
"The Virginian" have proved two of
the happiest and most substantially
enjoyed events of recent Belasco
history, for ever since the first per-
formance of "Winter-La Shelle" had
been play the Belasco has been
more or less in taken care of by
those that have sought admis-
sion to hold over another week.

The popularity of "The Virginian"
will naturally delay the first
presentation of "His Father's House,"
the new Witter Bynner play which
has been in preparation for the past
two weeks for its first presentation
at any one of the Belasco's.

In his new play Muriel Starr will
make her first appearance with Mr.
and his associates.

James, the president of all ven-
tures, will top the Orpheum bill
the coming week, opening Monday.

James, of international fame, works
with a single dummy, but delivers a
series of reports and wit that is so

good that it is
not to speak
of him.

James is trying to
get along well.

James is trying to

Mrs. Aubrey E. Austin,

who is settled in her beautiful new home on Arapahoe street and who will soon issue invitations for a house warming.

BRIDGE has been the popular B card game this week and one of the most interesting parties had its hostess Mrs. H. G. Heisler, No. 944 Vermont avenue, who invited her guests to play the fascinating game and meet Mrs. Jonas Wood, who is visiting here from San Bernardino.

Pink and white roses in the parlor and living-room were particularly effective, while the dark red carnations in the dining-room formed an artistic contrast. The games concluded with Miss Pauline Davis, Mrs. G. A. Broughton and Mrs. Wood in the lead and handsome wins were their reward. Others who played included Mrs. Fred Detmer, Mrs. John Bunn, Mr. Adolph H. Koenig Jr., Mrs. Phillip Greppin, Mrs. M. P. Walts, Mrs. M. M. Armstrong, Mrs. E. Foster, Mrs. W. S. Butler, Mrs. Cochran, Miss Hazel Cochran, Mrs. George Clegg, Mrs. H. L. Moore, Miss Ruth Beck, Miss Little, Mrs. A. Bruster, Mrs. C. O. Butler, Mrs. Hanberry, Miss Rose Boyd and Mrs. Benjamin Turner of Santa Ana.

Marriage-Koontz Wedding.

Mrs. Gertrude Adams and John Koontz were quietly married at 4:30 yesterday afternoon. The service was read by Rev. George C. Ellerster at the home of the bride's father, Mr. L. A. Adams, No. 1226 Lake street. Immediately after the ceremony, Mr. Koontz, who is assistant engineer of electrical engineering Stanford, took his bride north and for June 10 they will be at home friends at No. 221 Bryant street, Palo Alto.

Mrs. Marquis to Entertain. Mrs. August Marquis of West Twenty-eighth street will preside next Sunday at a bridge luncheon in honor of her friends.

Atwood Party.

As a pre-nuptial courtesy to Miss Elizabeth Rose Richards and Maude Wood and also to introduce her sister, Mrs. L. H. McGowan of Denver, Mrs. Stanley Atwood of No. 1126 Grand, gave an entertainment at a ranch yesterday. Spring flowers graced the table, where hand-embroidered cards bore the names of Dr. E. Z. Bowes, Mrs. Byron, Mrs. Eliza, Mrs. F. J. Fletcher, Mrs. George, Mrs. K. M. Fitch, Mrs. Johnson, Mrs. Harry Helleary, Mrs. John, Mrs. Cooke, Mrs. Waterman, Mr. A. H. Koobig, Jr., Mrs. Hay, Mrs. Vera Atkinson, Mrs. Grace Bader, Mrs. William Bader, Mrs. Dennis, Mrs. Charles, Mrs. Dennis, Mrs. Mary Cliff, Miss Ruth Elmo, Miss Sarah Hanaway, Miss Hauser, Miss Marie Schubert, Miss Bertha Lull, Miss Clara Smith, Miss Arlene Totten, Miss Anna, Miss Florence Thresher, Miss Evelyn Walker, Miss Lily Olhausen, Helen Thresher, Miss Jessie Lee, Miss Annie Pense, Miss Bea Custer and Miss Frances Rich.

Receive.

Mr. and Mrs. Alton Morrill Gates are at home to their friends after recent 1st at the Trebor apartment.

Summer Plans.

Mr. and Mrs. Patrick J. Higgins, 1173 Hoover street, with their three adopted young children, Hugh, Patricia and Tom, will enjoy a

Silk Shirts
Special
\$3.75

Values \$6 and \$6.50
The Silk Shirts here pictured are designed to fill a dozen needs and fill them with honor. In their making the best of Habutai silk is used; they have those comfortable French cuffs and collar. Shown in blue, lavender and black stripes of various widths on white grounds. See them and be convinced of their style features. \$3.75.

(Second Floor)

N. B. Blackstone Co.

211-212 Central Building, 318-320-322 South Broadway.

Ollie Paulin, Mrs. John McCarthy, Mrs. Daniel Jackson, Mrs. W. F. Cronemiller, Miss Margaret Jackson and Miss Cronemiller.

Lunch.

Miss Amanda Nouhauser, No. 714 West Eighteenth street, delightfully entertained with a luncheon in compliment to officers of the Corner Club, of which she is a member. American beauties mingled with others in the same shades adorned each room, carrying out the club color. The table was gay with red roses and rose-shaded candelabra, while above was suspended a club pin done in roses. Bouquets of American beauties were given as favors.

Progressive Luncheon.

A progressive luncheon was served Tuesday afternoon in honor of Miss Polly Agnes Chandler, whose weddinng June 18 to Jack Adams of this city was the occasion. Mrs. Mrs. Miller of Fulton avenue was the first hostess. Her home was decked with sweet peas and orange blossoms. Miss Edythe Spence of 2321 West 21st street was the next entertainer and here a purple and old rose color scheme was used. Mrs. J. A. Hoblet of the Seminole apartments served the last course, and later coffee was enjoyed. Guests motored to the Alexande, where they were the guests of Mr. George W. Harding. The party included Miss Spence, Miss Ida Wotiz, Miss Guendolen Martin, Miss Mabel Strusse and Mrs. Hoblet.

At Paso Robles.

Mrs. M. N. F. Bridgman is spending a week at the Hotel Paso Robles.

To Receive.

Mr. and Mrs. F. G. Kalin, No. 25 West Cypress avenue, Venice, will be at home to friends Sunday afternoon, from 2 to 5 o'clock, in honor of the confirmation of their son, Edward.

To San Francisco.

Mrs. Oscar M. Bryn of South Hope street will leave in a fortnight for San Francisco, where she will be the guest of her sister, Mrs. Klarnett. Mrs. Bryn will join her later and their summer vacation will be spent at Tahoe.

AUTOMOBILE TURNS TURTLE.

One of Six Occupants of Fatally Injured—Others Are Throw Clear of the Car.

Walter Pfister, a sign painter, 30 years old, living at the Hotel Cadillac, sustained probably fatal injuries yesterday morning when an auto in which he was riding with five other men turned turtle on Ninth and San Pedro streets. He was the only man not thrown clear of the car, which fell upon him, fracturing his skull and injuring him internally.

Pfister was treated at the Receiving Hospital, as was also Frank Beaver, a millman, 29 years old, who lives at the Cadillac. He sustained but minor minor bruises. Later Pfister was removed to the Clara Barton Hospital.

The auto belongs to Paul Engstrom, son of O. Engstrom, a contractor. The machine was driven by R. T. Miller, chauffeur and cook for the company. The identity of the other three men was not learned.

Woman SERIOUSLY HURT.

Run Down by Pacific Electric Car, Her Leg Is Broken and She Sustains Other Injuries.

Unable to judge the speed of an approaching Pacific Electric suburban car, Mrs. Mary E. Burroughs, 64 years old, living at No. 371 Beechwood

drive, was knocked down Tuesday night at a road crossing near the Sherman line and sustained injuries that may result fatally.

The woman was walking for the car on the wrong side of the road and as the headlight appeared a short distance away, she suddenly realized her mistake and started across the tracks too late to prevent instant death.

After being hurted several feet, she was picked up by the fender. She had sustained a broken leg and internal injuries, in addition to a fracture of the collarbone. One leg was amputated, as the police surgeons are not hopeful of her speedy recovery.

BLOCK FOR HILL STREET.

Small Lot Between Eighth and Ninth Brings Hundred Thousand Dollars—Buyer to Build.

For a reported consideration of \$100,000 the Hamburger Realty Company yesterday transferred to F. R. Feitshans, president of the Los Angeles Deal Company, a lot on the corner of Hill street between Eighth and Ninth. The site is forty feet frontage by 115 feet deep and is improved with a building of nominal value. H. B. Yarborough represented both buyer and seller.

The buyer will, at an early date, begin construction upon a modern store and residence. The building will eventually be carried to a height of nine stories and foundations for a building of this size will be laid.

For the present, however, the im-

provement will be only three stories.

It will be occupied by the Los Angeles Deal Company, which Richard Weinstadt Company is preparing the plans for the building and will erect it.

A Coat Sale

That's A Hit!

If you did not see the notice of the \$3.75 Coat Sale at "The New York Store" today, plan now to attend it!

There are Coats for the street, for motoring, for travelling, for every ordinary coat purpose, and the styles are certainly by far the cleverest that have been shown in the city this season.

You'll find the latest modes in Cream Serge Coats, Navy Blue and Tan Serge Coats, tan and gray mixtures and even the Black Taffeta Silk Coats that elderly ladies are so fond of wearing everywhere.

REMEMBER—It's the Third Floor, "New York Store," the price is \$3.75 and TODAY IS THE BEST TIME FOR CHOOSING!

How the Crops Stack Up on the San Fernando Mission Lands

—Wouldn't it give you a pretty chesty feeling to have a crop like this produced from YOUR land? And when the golden dollars come pouring in in return for this golden fruit, it would certainly give you a mighty independent feeling.

—Do you realize that for \$450 and \$500 an acre you can purchase frostless citrus lands in the San Fernando Mission Land Tract that will bring any man an independent income? And when these lands are full bearing they will be worth \$2000 to \$3000 an acre—four to six times more than you paid for them. Full bearing groves on these lands now are held at these prices. Where else can you put the small amount of money necessary to purchase a few of these acres, to bring such great returns? And don't overlook the fact that frostless citrus lands within 22 miles of Los Angeles are difficult to buy.

—Also don't overlook these important points about the San Fernando Mission Lands—Owners here will have the advantage of the Owens River Water.

—These lands will be connected with Los Angeles by electric car line within 90 days.

—Two fine boulevards now connect it with Los Angeles.

—Electricity may be had on all the lands and gas will be available within a year. There is no pioneering to be done. Two grammar and one large high school are in San Fernando and construction has just been commenced on the new \$75,000 hotel.

—Awake to your opportunities before it is too late.

O

DAILY BEAUTY HINT: The girl with cheeks like the delicately flushed rose petal told me her secret. She says it comes in liquid form and is supposed to be compounded from the juices of ripe fruits and wine. She purchases it at a local store.

"I have always wondered," said Jim, "why tailors keep people on their benches so long while making their clothes; and now I have discovered who will take your measure and have your suit ready to do. What do you mean? You mean he will not be ready-to-wear suit?" I asked.

"Indeed! You select your goods and have them measured and finished in three days. He did not charge you extra fare?" I asked.

"And charged you 'extra fare'?" I asked.

"Not too penny extra! And he does not care what the average tailor."

"That is worth knowing," I replied. "For really many times you get no good tailoring for your money or good tailoring for your time. It was all over before you have it at all. I have often wondered why it is necessary to wait so long, but supposed it was necessary. Thought mostly there was some reason, but could not find out through with. Then thought he had to have them and you had to hand around for from ten days to two weeks, just on general principle in order that the tailor might know his work."

"I think most persons would feel as though he had earned his money if he made haste about getting the garments ready than if he waited."

"We do it; and evidently your wife has found this out."

"I pay less than average; but I have no inclination to run after sales in either form, than I would have in the first place. You see we are always his customers."

"I suppose, it really pays him in the long run," I ruminated.

The Allusion: Routines. Today, Thursday, there will be in the windows of Broadway stores boudoirs, decorations of the silkenest rustless ranges, of which I told you last week.

If you have any intention of buying a gown for yourself, or as a gift to the wife, I sincerely advise you to call your attention to this bellis among stores.

The woman, who cares, would be most proud of such a beauty in her window. And she who does not care, may be surprised to find that the silken ranges have trimmings of gold metal and the black ones have stripes of nickel? Another dainty touch is that of the white porcelain ring holding the brooches and ornaments. But the daintiest thing of all is the gauze belt, which is said to be but half that usually insisted upon ranges. You are the floor of the room a contrast—and—but why fit for yourself?

No Telephones Here! Many of my friends are tearing their hair and almost tearing each other out, pro and con, over the telephone system. And good houses have it. When I met her in a Spring Grove store,

You need have no thought as to whom to call, or where to get a voice from. "You whole can be heard without noise." We looked around and there stood that same charming little lady in the same time demonstrated that she had a telephone store. "Well! You have got me!"

"What are you going about? It must be you talking about me?"

"No, I am not talking about me," I said. "I know about whole housekeeper."

"What does this differ from what has been on the market?" "It differs," promptly replied the young little lady. Then she continued, "I have made the same analysis as you, and saw a point that you could improve upon that you can't."

"I thought that perhaps this is better." Then she continued, "I have made the same analysis as you, and saw a point that you could improve upon that you can't."

"I am not talking about me," I said. "I know about whole housekeeper."

"What does this differ from what has been on the market?" "It differs,"

she said. "It is better." Then she continued, "I have made the same analysis as you, and saw a point that you could improve upon that you can't."

"I am not talking about me," I said. "I know about whole housekeeper."

"What does this differ from what has been on the market?" "It differs,"

she said. "It is better."

Then she continued, "I have made the same analysis as you, and saw a point that you could improve upon that you can't."

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

Pasadena. TIMELY RESCUE OF SHEEPSKINS.

**Snow Proves Good Antidote
for Sick Situation.**

**G. A. R. Plans for Big Parade
Includes Everybody.**

**Last Grand Rally On the
Liquor Question.**

(CONTINUED FROM PAGE 10.)
PASADENA. May 22.—The 200 students and children who have been home from the Pasadena High School and the Grant and Jefferson schools for two weeks will be allowed to return to their classes next Monday, unless new cases of smallpox develop meanwhile. This action was taken by the School Board yesterday as the result of a visit to the city yesterday by Dr. W. F. Snow, secretary of the State Board of Health.

The situation had become an unusual one in that the time for commencement exercises is approaching and, unless they should be permitted to return to school, some of the pupils at the High School would have been unable to graduate.

Dr. Snow arrived from Sacramento and immediately held a conference with Superintendent of Schools Thomas J. N. Smith, a member of the Board of Education, and J. P. Bradbury, S. H. Johnston and J. E. Pike of the Pasadena branch of the California Anti-Compulsory Vaccination Society at the Board of Education rooms. He learned that there is but one case of smallpox in the city, so ordered that the school children be admitted to school Monday unless other cases are found.

The ruling of the Board of Education, which the children were excluded from school until those seven years should come to school unless vaccinated. The parents of some of the High School pupils were prepared to have their sons graduating rather than have them vaccinated.

Dr. Snow returned to Sacramento last night.

ASKED TO JOIN IN.

The G.A.R. Committee on Arrangements for Memorial Day yesterday issued an invitation to other organizations of the city to take part in the parade on the 30th inst. It is addressed to the fraternal organizations of Pasadena, and reads:

"Meeting in the broadest kind of fellowship and brotherhood between mankind, John F. Godfrey Post No. 95, Grand Army of the Republic, will be pleased to have every fraternal organization in Pasadena take part in their parade on Decoration Day, Thursday, May 26. And but for the fact that you cannot be made at the park where the day's exercises will be held, a general and unlimited invitation would be extended to all of the organizations to attend all of the exercises of the day. Regarding their inability to seat you at the park, the committee on arrangements does extend to you a very cordial invitation to join the parade and witness the exercises of the evening at the First Methodist Church, Glendale (and you will be more than welcome at the park if you can endure the inconvenience.)

"Hoping this invitation will be received in the spirit in which it is given, and, if accepted that you will give notice to the commander of the post by sunset phone No. 481 at once so the committee may arrange for you in the parade, we are.

Very respectfully,
THE G.A.R. DECORATION DAY COMMITTEE OF ARRANGEMENTS."

The John F. Godfrey Post, the Women's Relief Corps and the Ladies of the A.R.V.A. will hold memorial services at G.A.R. Post tonight for members who died in the last year.

WORK IS TO BEGIN.

City Engineer Van Orman yesterday was requested by the Mercedo Bridge Company to stake out the proposed new Colorado-street Arroyo Seco bridge. Arrangements are being made to begin work on the \$200,000 structure as early as June 1.

The contractors have planned to make a beginning with the center arch, which is to be 200 feet high and 140 feet above the ground.

MEETINGS ARE PLANNED.

There are both sides of the liquor issue will be active tonight, the eve of election day. The Citizens' Association has ensured Clun's Theater, where a last grand rally will take place, with an overflow meeting at the Civic Center Annex, West Colorado and Del Rey streets.

Yesterday was a busy day with both sides. A band layed in the street throughout the afternoon, calling attention to the Citizens' Association headquarters, and the wagons with the boy in the barrel paraded the streets again, attracting attention by the ringing of a huge bell.

CITY BRIEFS.

The following officers have been elected by the Pasadena State of Maine Society for the ensuing year: Wallace Donan, president; R. W. Chamberlain, first vice-president; F. L. Williams, second vice-president; Mrs. J. E. Colby, recording secretary; Mrs. F. W. Pitch, financial secretary.

Carson was the subject of a highly entertaining and enjoyable lecture by Rev. William T. Davies before the members of the Shakespeare Club yesterday.

The name of the Union Savings Bank, which is conducted in cooperation with the Union National Bank, yesterday was changed to the Union Trust.

A Sunday-school institute will be held at the First Baptist Church next Tuesday.

Dr. C. E. Matteson and Dr. J. R. Todd left yesterday for Montreal to attend the 1912 convention of the American Medical Association.

The 1912 annual meeting of the Pacific Coast Trail will be held next Monday at the headquarters of the organization, No. 2 West Colorado street. Officers will be elected to serve for the coming year. The honor of chairing the organization next year will go to one member with more than two terms, and R. D. Davis has al-

ready served this length of time, it is likely that a new president will be selected.

SOME FOR AND SOME AGAINST.

South Pasadena are Not of One Mind as to the Admissibility of Unit with Los Angeles.

SOUTH PASADENA. May 22.—A vigorous campaign is being waged in the city over the question of annexation. From the Lincoln Park section, it is rumored that the majority are in favor of annexation to Los Angeles, because they believe that a greater water supply, of which the city is badly in need, can be obtained from Los Angeles, and that annexation means lower taxation.

Long Beach, NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

VARIOUS VALUES PLACED ON LAND

Commissions Decide to Find Out for Themselves.

Form Annual Assembly Plans to Receive Delegates.

New Salt Lake Manager Goes Over Beach Situation.

LONG BEACH, May 22.—According to testimony being taken by the commissioners appointed by the court to assess benefits and damages to property affected by the proposed opening of American avenue through the bluff from Ocean avenue to the beach, there is a wide difference in the estimated values of the property. Former City Clerk and Assessor C. O. Boynton said that property facing Ocean Avenue was worth \$350 a front foot, \$250 a front foot for homes, \$200 a front foot for hotel.

BEACH BRIEFS.

The realty board last night adopted a resolution to pay for the legal defense of any one of its members who might be arrested for failure to pay the occupation tax assessed by the city, the board being to make a test case of the legality of the ordinance. If it is held to be a legal license the Board will offer no objection to its payment.

Mr. F. H. Miller, a tourist, while resting on the beach, was surprised by two attacks of heart failure and was removed to her quarters on East Ocean Avenue in a serious condition. William J. Sherman, for ten years a resident of Long Beach, died this morning at his home on East Seventh street. He was a native of Canada and 65 years old. He leaves a widow and four children.

AZUSA OFFICERS MAKE A RAID.

Arrest Many Alleged Violators of Liquor Law and Seize Considerable Contraband Goods.

AZUSA, May 22.—City Marshal W. C. Gravill and his assistants made a raid Saturday night upon the "blind pigs" here. The posse consisted of Granville, nine deputy marshals of Azusa, eight deputy sheriffs from the District Attorney's office, and Albert Barbam and W. E. Brasher, internal revenue officers.

The men arrested Saturday night were Fred W. Putnam, Mrs. Florence Fernandes, Pasco Vasquez and M. Lopez. Five men got away; three of them, Gertrude Macies, Chico Miranda and Othon Miramon, were found in the early hours of Sunday morning. The other two are still at large. Most of the places raided were in the part of town which is largely occupied by Mexican residents, but one was situated on the main thoroughfare, within a stone's throw of the business section.

It is believed more arrests will be observed in the summer, all of the places might have been successfully raided; but as the whole duty it was to enter half a block of the place the lights suddenly went out when the police came. Not a person was in the place, but so hastily had some of the people left that \$100 was lying on the table.

The large quantity of liquor was found in all sorts of out-of-the-way places. One place on Main street in evidence was a woman, who was in bed. She declared there was no whisky in the house, and steadfastly refused to get up. She was lifted from the bed, and eleven bottles of brandy were found beneath the mattress. At another place the crew was found in a hole in the ground which was concealed by bales of hay. Holes in a bed of thorny cactus furnished another hiding-place. Two barrels of bottled beer, and two cans of whisky are being held at the Santa Fe Station as contraband goods.

At the preliminary held this afternoon effort was made to show that most of the arrested persons were guilty of a double offense, having sold liquor to minors as on election day. The men were released on bail of \$200 each. Their trials will begin May 27, and will continue at the rate of one per day until all have been disposed of.

Arrowhead Springs, summer rates.

Santa Monica.

TWO CONCERN WANT THE BEACH AERIAL FRANCHISE.

SANTA MONICA, May 22.—The man who buys the franchise to build an aerial railway here must bind himself in the sum of \$5000 to start work within four months and complete the road within a year and a half. The sale of the franchise was advertised today, the application for having been made by the Fawkes.

However, as the Valentine Monorail people have been looking the ground over, it is expected they may bid for the franchise.

The proposed line is to be more than two miles in length, running the entire width of the city on Fremont street. The promise of the Fawkes people is, if they secure the franchise, to make application for rights that will carry them on county territory to the western terminus of Pico street, Los Angeles. A fare of 5 cents within the city and 10 cents to Los Angeles is promised on cars that in tests have demonstrated a speed of more than 100 miles per hour.

THE CITY COUNCIL last night granted the franchise of the railroads for the establishment of the street grades on all streets from Tenth to Thirteenth and Nevada to Montana. Sidewalks and curbs are to be laid, oil paving done and sewers and water lines installed. The provisions of the Vrooman act. This advance step marks the breaking up of practically the last of the bean fields and other rural areas in the city limits. Just as soon as the company's improvements can be made it is expected there will be a cyclone of hula-galand building operations in these subdivisions. Plans for numbers of homes have been secured and work will be started just as soon as the sewer mains and water pipes can be installed.

NO MORE GAMBLING.

Acting upon instructions received from the office of the District Attorney, the police officers of the city may now issue to the proprietors of all paddle-wheel and other games of chance to close up shop. Gambling with dice is now the only game of chance permitted to be played along the streets. The result of this order's enforcement was the closing of a number of bird, merchandise and candy shops that had relied for patronage upon those who won by means of numbered paddles.

Arrowhead Springs for health and pleasure.

OLD KING ALFALFA

Alfalfa beats the bank. It pays bigger interest and never fails. Heat improves it. Cold cannot harm it. The deeper it goes the better it grows. Flood cannot drown it. Fire cannot reach it. Cattle love it. Hogs fatten on it. Poultry thrives on it.

Growing alfalfa means growing independent. It bores like a Kansas chigger and bears like an Australian rabbit. It loves deep soil and hates hardpan. It chokes weeds and eradicates mortgages and wrinkles. Once rooted in good soil with an occasional drink of God's pure water, the days may come and the days may go, but, like Tennyson's brook, it goes on forever, handing out the long green and then some.

I can sell you GOOD alfalfa land in Perris Irrigated Farms at \$100 to \$150 per acre with water. Easy terms, four years to pay.

OTL DIRECT WIRE TO THE TIMES: May 22.—(Exclusive Despatch.) A situation decidedly new was created in the Superior Court this afternoon when a witness in the Bauwaerts murder case was called down by the court for uttering a profane expletive. A. D. Hyatt, a typical desert prospector, was testifying to the unearthing of the body of Mrs. Harry Guyot, the mother of whom Bauwaerts is on trial. When attorney A. H. Winder started in to cross-examine the defendant, he failed to get an direct reply or an answer to his queries.

"I object to the manner in which you witness answers my questions," complained to Judge Denmore. Seated forward in the witness chair and testifying the young attorney gave an outraged expression, the old man burst out:

"Now in hell and damnation can we expect me to answer?"

After consulting the witness, the court adjourned.

"Mr. Wilson, if another outbreak like that occurs you will go to jail; and send you now except that you may be a slight palliation for me other than that."

Wilson, who witnessed the killing of the Belgian, Bauwaerts, Mrs. Harriet Guyot and Miss Francis in the Chuckwalla Mountains, and finding the bodies alone.

For the first time the discovery was made that Bauwaerts had been approached by the camp. He had returned with Hyatt, and a companion and made a search of the camp of the Belgian.

The first found the body of older woman covered only a few inches deep in a creek bed, and later in body of the girl was found under a rock.

Both bodies were wrapped in bed sheets and were wrapped in bed sheets. Hyatt traced Bauwaerts from the desert for thirty miles and came to the camp of the Southern Pacific Company, where he found Putman buried. They first found the body of older woman covered only a few inches deep in a creek bed, and later in body of the girl was found under a rock.

OASIS OF DESERT CHEERS SETTLERS.

BANNING, May 22.—The settlers near Warren's ranch, about forty miles northeast of Banning, in the Willow Boy country, are jubilant over the finding of water after sinking wells about 125 feet. Many claim holders have settled on without irrigation. These men on tracts that are worthless of the frontier staked their desert land in the last year, small fortunes in locating there and even imported a steam well drill at great expense. Now that water has been found a new region has been added to Riverside county's resources, for there is much land that can be irrigated and settled on.

FUMIGATORS AT ONTARIO.

Ranchers Going After the Insect Pest by the Most Practical and Economical Method.

ONTARIO, May 22.—Members of the California Fumigation Association, organized in Ontario on March 21, will meet here next Saturday at the O. K. Fruit Exchange at which time they will turn the organization and adopt constitution and by-laws. Following the executive session talks on fumigation are to be listened to.

The Executive Committee of the association comprises the following: R. P. Cundiff of Riverside, G. W. Waterbury of Corona, T. R. Woodbridge of Upland, E. A. Moore of Redlands and S. A. Pease, county president. The officers of the association who will serve until March, 1913, are Fred J. Smith of Pomona, president; P. W. Tonnesson of Ontario, vice-president, and C. T. Payne of Los Angeles, secretary.

ANEXATION DEFEATED.

The effort to annex a large tract north of this city failed at a meeting of the voters today. The result was a vote of 1,000 in favor and 1,000 against.

The object is to secure a plan for a more practical and economical method for the eradication of the insect pest. Ontario has been defeated upon the meeting place of the annual meeting, since it is located in the center of the orange belt.

FAVORS NEW SCHOOLS.

In a largely-attended session today the local W.C.T.U. voted to recommend to the county commissioners approving the proposition to vote bonds in the sum of \$250,000 for a Polytechnic group. The white ribbon also pledged themselves to the cause without ceasing for the bonds.

The election will be held Thursday, June 4, the day before school closes for the summer vacation.

Five Hundred Men Working to Turn Current.

Man Buried Pauper Leaves Fortune in Bank.

Annexation Election Fails to Secure Support.

SAN BERNARDINO.

SAN BERNARDINO, May 22.—The situation at Needles tonight, where the Colorado River threatened much damage, was improved, although the river was steadily rising.

The force of 500 men kept at work for twelve hours by the Santa Fe Railroad, succeeded in placing new abutments that it was believed would change the current to the Arizona side of the Colorado, where the river is now flowing.

The rush of water yesterday tore out all new water pipes in Needles, except one, leaving the town practically without water, power and with enough water to prevent a famine until rains come.

ARROWHEAD, OUTDOOR SWIMMING POOL, MANAGER.

(Continued from First Page.)

fall, evidently remembering some of the bad days of the past. "Fifteen or sixteen hours a day?" This inquiringly.

A short that was one of unmistakable ignorance at the implication that fifteen hours was being worked day, broke from Mr. Huntington.

NINETEEN-HOUR DAYS.

"Well, I should say I have," he said, when he had recovered his composure somewhat. "I have worked nineteen hours a day many a time. When I was superintendent of the building of the Chemung Canal, in Pennsylvania, I worked nineteen hours a day for nine months, a stretch right along.

"A man ought to retire at the age of 60, that is he ought to if he can afford it for the rest of his life," he said. "I have performed his work by that time and owes it to himself to take a rest and enjoy the remainder of his days."

"Have you found it hard work to quit hard work?" was the enigmaical question that was next put to him.

"A man greeted me, "Well, rather," was the reply. "I had to arrange my affairs so that they would range down without my having to give them my personal supervision. Then I got the men to do the right job so that things would run smoothly."

As Mr. Huntington, besides owning the street railway system in Los Angeles, owns the construction line in the San Joaquin Valley, he is well known.

"I have a hardware store at El Molino will not be opened this summer, according to Mr. Huntington. There are servants in the mansion, but it will not be formally opened. Mr. Huntington is in Los Angeles during the summer and return to New York in the fall.

FIRST WORK FOR NOTHING.

In speaking of his early life, Mr. Huntington said that he worked for nothing when he took his first job.

"When I was 17 years old I worked in a hardware store in Oneonta, N.Y., he said. I did not know anything about the business, but I worked hard and learned quickly. I was given a room above the store and lived there on a salary when I got a job there.

"I worked for nothing. I worked for a hardware store in Oneonta, N.Y., he said. I did not know anything about the business, but I worked hard and learned quickly. I was given a room above the store and lived there on a salary when I got a job there.

VALUABLE AIDS FOR COMPLEXION AND HAIR.

Lovely complexions will be immune from tan or freckles during warm weather if a spuma lotion is applied to the skin once a day. This lotion is invisible when on and will not spot from perspiration. To make, dissolve 4 ounces of spuma in $\frac{1}{2}$ pint with hazel (or hot water) and add 2 tea-spoonfuls glycerine. The spuma lotion is superior to powder and will make smooth and clear a rough, blotchy or oily skin.

A teaspoonful of canthoxil dissolved in a cup of hot water is ample mixture for a satisfying shampoo, and even though the cost be trifling, nothing else can compare with it for restoring the soft fluff and brilliance to brittle, faded hair. Canthoxil is also an excellent tonic for unfeathery scalps and starved hair-roots.

WHAT is the greatest virtue in a motor car? Some consider it speed. Some beauty. More think of design. Others are impressed with economy.

To owners of ALCO cars that day has long since arrived.

There are many ALCO cars that have run over 100,000 miles and are still in service. These cars are often the wealthy "new" men who could afford to buy a new ALCO every year.

An ALCO will last many, many years.

We have never known of one to wear out. And you almost never see one in a second hand shop. Think that over.

ALCO cars are built by the American Locomotive Company.

An Appeal to the Ump. Score 1 to 0 for Vernon.

Too Much Class.

SCARCE HITS BEAT ANGELS.

Hitt Stingy With His Swats
at Right Time.

Halla Has All He Desires In
Eight Innings.

Dillon, Patterson and Berger
Show Pretty Fielding.

BY GREY OLIVER.

Vernon, 1; Los Angeles, 2.

Too much class, yesterday.

Little too much Hitt pitching for

each team, and little too much

make anyone sit up and take notice.

Why, in the eighth inning the Angels

got two singles, a double and a pass

off Hitt, and with all this, could score

but one run at the tickleness of women kind.

There's only one thing in which the fans are constant—their inconstancy.

The here of last season is sure to be the gone of this.

Even though Walter Carlisle came to bat last year, he was greeted by a cheer; this year he more often gets a derivative, "Well, roll over."

Last year Hingle Smith was howled at and his home from April 15 to the

last day of the season. Yesterday, he

came into the game after a long absence and I was not surprised to hear the cheer that went up from the bleachers.

That's all.

Tommy's Training.

The astonishing information came over the telegraph wires that Tommy Burns had been "quietly" training for some time.

Do you get that—quietly?

Ever since Tommy came home from Australia he has kept a steady stream of strident, raucous press agent dope raining upon the devoted heads of every sporting editor in the land.

Even though he has given the reason why the United States post office has begun to be self-sustaining on account of the money expended by Mr. Burns in postage stamps,

Another story, scarcely less amazing is that Tommy has challenged Luther McCarthy, and in a match with that dub "promises to show the New Yorkers some clasy fighting."

Willie's Chance.

That putty-faced Chinderella, Willie Ritchie, is all set to get a real chance on his own account.

Having staved at home and been little-sister-among-the-sisters, taking the chances that the other fighters didn't want, Willie is now ready with a bunch of real fight invitations in his hands. He can make Leach Cross, Knockout Brown or Ben Murphy travel far and wide to take him on.

Ritchie believes that he can run away with the present-day lightweights and would have been there long ago but for the fact that he had a manager with a more profane fighter than himself.

Willie is taking the cast-off party dress that Packy McFarland didn't want to wear.

VERNON BEGINS.

After being four runs behind in the eighth, Halla quit the game and gave Chock a chance, but he did not seem to be any better.

Hitt had to be helped out of last Sunday morning's game in the Vernon grounds, but he went in yesterday and stood the locals on their heads.

Two singles did them no good in the first and a fast double may kill off the chance in the second.

In the third Lober arrived there in the fifth on his triple to right with one out, but the next two men were out.

No one started anything in the sixth.

Hallman began the seventh with his first double to left, ran to third on Metzger's sacrifice fly to right, and then when Lober banged a single to center.

Stigles by Howard and Duley and Hallmiller's second double to left scored the final run for the Angels.

HALLA DRIVEN OUT.

After being four runs behind in

the eighth, Halla quit the game and

gave Chock a chance, but he did not

seem to be any better.

Hitt had to be helped out of last

Sunday morning's game in the Ver-

non grounds, but he went in yester-

day and stood the locals on their

heads.

Two singles did them no good in

the first and a fast double

may kill off the chance in the sec-

ond.

One of them got to right in the

third in the fifth on his triple to

right with one out.

No one started anything in the

sixth.

Stigles by Howard and Duley and

Hallmiller's second double to left

scored the final run for the Angels.

VERNON BEGINS.

The Tigers did not begin on Halla

until the fifth, when they grabbed

two runs on two singles, a pass,

a sacrifice and Howard's muf of

one that second to force Brown.

In the sixth, Halla ran out and

Haus' triple over first base made

another easy run, and then in the

ninth.

(Continued on Second Page.)

MORAN MUCH BUT- TED, HEADED WEST.

(By DIRECT WIRE TO THE TIMES)

NOW YORK, May 22.—

Owen Moran started for Cal-

ifornia today so as to get a few

days of preparation on the

Coast for his fight with Jack

White at Vernon, June 1.

Before starting, Moran said

that Charley White butted him

so badly in their ten-round

bout at Syracuse Monday night

that he had to have five

stitches taken in the cut.

Now, he does and is afraid to meet

White again.

Johnny Guessing Now.

Just why Johnny Kilbane should

consider himself champion when little

Jimmy Walsh, lastest rooster, almost

beats his head off is what gets me.

John should get the money as

speedily as possible for about the next

good guy that meets him will wallop

him to death.

He's so fat and pompous and so im-

posed with his own importance.

Good bye, Jimmy; here's your hat

and don't hurry back.

Mr. Wad Is Having a Great Time in the Dippy Dump--Now He's Met Ty Cobb!

Showing Class.

OLYMPIC MINSTREL SHOW WILL BE A BIG SCREAM.

The winding blues and twinkling minstrels, the Olympic minstrel show is rounding into perfect shape for the big show, May 28. This crew of painted-black faces is performing on the stage of the mineral bath, and the final performance promises to be highly satisfactory.

Highly professionals are taking place in Los Angeles Athletic Club, and will pass through his part with skill, and the whole troupe make of the difficult art of being minstrels with a spirit that is bound to be inspiring.

The minstrel has been scheduled during the closing song of the show, which is called "Olympic Game," and is a weird song, written by a man named Phil Keenan, and if what he says is true, it is a real minstrel masterpiece, this song is a real minstrelization, and will furnish many laughs.

Full of Business.

The Times

LOS ANGELES

XXIst YEAR.

FRIDAY MORNING, MAY 24, 1912.—12 PAGES.

PRICE: 1

Population: (By the last Federal Census (1910) —312,129
(By the last School Census (1911) —360,000)Stage Coaches, or Street and Trains, \$2 Extra,
Per Month, Per Coach, Delivered, via Cable.**N.B. Blackstone & Co.**
316-320-322 South Broadway.

Lace Remnants at Half and Less than Half

Hundreds of pieces all pinned up and marked ready for quick choosing. All kinds and qualities, all lengths, from a quarter of a yard to three yards.

Edges, Bands, Galloons and Allovers, in cream, black, white and ecru. You will pick up many a needed piece in this lot. None are more than half price, many only one-third value.

—Main Floor—

Sale of Sheeting and Muslin

Women who are posted on Muslin values will recognize the usual in these two items.

30c SHEETING, 25c

Fruit of the Loom, the best 12½c MUSLIN 10c.
Heavy, fine Bleached Sheet-
ing, 7½ yards wide, our usual
today (limit of 10 yards to
one customer,) 10c.

Blackstone Dollar Damask

This Dollar Damask is the best advertisement our Linen Department ever had. Every yard we sell not only makes a lasting friend of that particular buyer, but she interests a half dozen friends in her purchase.

Try us! \$1.25 or \$1.50 a yard.

White Bleached or Cream color, full 72 inches wide, woven
two ins. and extra heavy. Our price is \$1.00 a yard.
22-inch Napkins to match, at \$3.50 a dozen.

Pretty Jewelry Novelties 25c

Regular Values 50c to \$1

Our judge this lot of Jewelry by the price we've made, that could be unjust. There are Belt Pins and Buckles, Hat Pins, Brooches, Stick Pins, Cuff Links and Necklaces in this lot whose duplicates sold at 50c, 75c, 85c and \$1.00—some even higher. Broken lines which we are anxious to clean out. A hundred or more pieces in the lot.

25c

Sale Drapery Crepe 20c

1000 yards of handsome Japanese Drapery Crepe will be offered, today, at the above mentioned price. Stripes, figures, or plain colors, in every thinkable combination, suitable for any Drapery use, as well as for Waists and Frocks. 20c yard.

—Fourth Floor—

Main Floor—

Why The Cecilian Player Piano is Easiest To Operate

Getting better musical results and giving greater satisfaction than any other Player.

The Cecilian has the greatest air or bellows capacity, and by means of its peculiar construction and unique device it makes the loudest and is able to play more clearly and easily any note, whether in treble or bass, or even any single note.

The Cecilian is the only Player piano that can transpose six notes, making it possible to accompany any voice—soprano, contralto, tenor or bass—or play with any instrument—a most important feature to those who play other instruments, and cannot transpose.

The Cecilian is also the only instrument in which the air chests and reservoirs are of metal—making heat, cold and dampness no longer to be feared.

COIN HANDLERS BY SEA MAKE LONG BEACH RING.

California Bankers' Association Shifts State's Financial Center, and Convention Is Opened With Three Hundred Representatives of Untold Millions on the Job—Pleasure Sandwiched in With Business.

LONG BEACH is the financial center of the State, and will be for the remainder of the week. The eighteenth annual convention of the California Bankers' Association opened yesterday.

There was an attendance of 350, representing untold millions of dollars.

As a rule, however, they don't look like capitalists, but rather give one the impression of well-fed, prosperous business men, out for a few days' vacation.

The advance guard came Wednesday, and with their wives and daughters were on hand early yesterday morning. And all the local committees in extending a cordial welcome to the main crowd of delegates, who began to arrive on early trains. A large party came south on the steamer Harvard, and were taken from San Pedro on a special Salt Lake train, which landed them directly in front of the Hotel Virginia entrance.

"One does not have to be endowed with the spirit of prophecy to see that the Pacific Coast of the United States is to become the scene of unusual activity during the next few decades, and the Industrial development will await the perfection of already discovered methods of reducing iron ore by electricity to make California one of the great iron and steel producing centers of the world.

"The effect of the attempted enforcement of the antitrust provisions of the Sherman law, with its interdictions against present organization of business, and without suggestion of changes that would be acceptable to the government, has produced such a feeling of uncertainty, as to cause the leaders to proceed to stop and wait the outcome of it all; it has been

arranged for the bankers to meet the

delegates there, to become the scene of unusual activity during the next few decades, and the Industrial development will await the perfection of already discovered methods of reducing iron ore by electricity to make California one of the great iron and steel producing centers of the world.

The effect of the attempted enforcement of the antitrust provisions of the Sherman law, with its interdictions against present organization of business, and without suggestion of changes that would be acceptable to the government, has produced such a feeling of uncertainty, as to cause the leaders to proceed to stop and wait the outcome of it all; it has been

arranged for the bankers to meet the

delegates there, to become the scene of unusual activity during the next few decades, and the Industrial development will await the perfection of already discovered methods of reducing iron ore by electricity to make California one of the great iron and steel producing centers of the world.

Arriving delegates were met by the local committee, consisting of P. E. Hatch, R. D. Jenkins, C. W. Walker, B. F. Tucker and J. W. Tucker, and shown every attention. At noon it was estimated 250 delegates had registered, and many more are expected.

A special session of the executive council was held in the morning to receive some of the commercial house representatives.

The composition proper was convened at 2 o'clock in the afternoon, in the south half of the Virginia ballroom by President Stoddard Jess. He introduced the first speaker, P. E. Hatch, chairman of the executive committee, who delivered a hearty welcome to the delegates and their families. He recited a poem of welcome written by W. Turner of the Long Beach Savings and Trust Company. He was responded to by Hon. Warren Porter of Watsonville.

PRESIDENT'S ADDRESS.

Then followed the annual address of President Jess. He said, in the main:

"Twenty-one years ago the California Bankers' Association was formed. The first and chief object of the association have been, in a large measure, attained: its influence in promoting safe and conservative banking has benefited not only its members, but has had a beneficial effect upon the financial interests of the State; the influence of the association in securing legislation to insure good banking methods, and proper supervision of banks for the protection of the public as well as in the interests of itself and themselves will leave a lasting impression on financial conditions in the State; and the protection it has afforded its members against loss from crime has been considerable and is increasing in efficiency every day."

"In 1891 there were only 346 banks of all kinds in the State, with total deposits of \$228,675,784.72; and today we have 732 banks with total deposits of \$769,926,108.92—an increase of 30% per cent. in number, and 220% in amount of total deposits. While the progress shown is great, California has only begun to develop."

The effect of the opening of the Panama Canal on the future of California cannot be overestimated. With the market for its products so removed, the cost of transportation has been a heavy charge on the industries of California. With the opening of the Panama Canal this will be changed in a marked degree. California will be brought over as

(Continued on Ninth Page.)

Charge and Counter-charge.

GRAND JURY CALLED TO SETTLE ESTATE FIGHT.

THE county grand jury is investigating matters pertaining to the estate of Prof. James Alexander Brown, who died at Venice March 20 of last year, leaving an estate valued at \$21,570. Mrs. Blanche Brown, the widow, administrator of the estate; Elton Lorain Brown, and James Lair Brown, two sons by a former wife; John C. Eppes and other witnesses have been examined. The particular question before the grand jury was whether a note for \$5000, made out to Mrs. Brown, and signed by the deceased, is valid.

Friction had existed in the Brown family, it seems, long before Brown died. The sons and Mrs. Blanche Brown have been in litigation over

the estate since his death. Elton Lorain Brown and James Lair Brown alleged in a suit filed in the Superior Court that the \$5000 note produced by Mrs. Brown after the death of Prof. Brown was fictitious. They also asserted in their suit that Mrs. Brown, shortly after the death of her husband, destroyed two notes each for \$5000, made out to them by their father. Mrs. Brown answered that the note made out to her was genuine, and she knew nothing of other \$5000 notes.

No will was filed after the death of Prof. Brown and when Mrs. Brown petitioned to be appointed administratrix, the sons filed a motion to set aside the petition.

Mrs. Brown has been receiving an allowance of \$150 per month out of the estate.

Public Service: City Hall, Courts.

SUMMARY OF THE DAY.
The Council Legislative Committee yesterday decided to give a public hearing to all "mediums" and "spiritists" next Thursday on the question of prohibiting their operations within the city.

The City Council yesterday voted to sustain the demand of Public Utilities and the fixing of rates for the Union Sewered Water Company.

Complaint was made to the Public Welfare Committee yesterday of the public nuisance created by street speakers at Fifth and Crocker streets and plans are to be prepared for restricting these persons to only one street in the entire city.

Councilman Andrews stated yesterday that he will serve the city as Councilman for six months without salary if his conferees will do the same.

An estate which has grown from an investment of \$4000 to \$300,000 is the subject of much litigation in the Superior Court, five suits having been filed by the executor to recover possession of the property.

At the City Hall.

OPEN HEARING FOR MYSTICS.

MAY APPEAR BEFORE COUNCIL COMMITTEE THURSDAY.

Show of Season Scheduled for City Hall Next Week, When Spiritualists Will Be Given Opportunity to Show Why Their Fakery Shouldn't Be Stopped.

Came to the counter of the City Clerk's office yesterday a woman of determined appearance and most fascinating countenance. She was one of the prominent figures in the realm of mysticism; as it is known in this city, and advertised to accurately tell the past, the present—and the future.

"I want to know just what the City Council is going to do about that ordinance proposed to rule us people out of business," demanded the lady, self, madam," sweetly replied Council Clerk Carroll. "I understand you always forecast the future accurately."

The council clerk was favored with a withering look and the woman turned away.

This was a sort of preliminary to the action of the Legislative Committee of the City Council, yesterday, in preparing for a show of spiritualists to appear before the committee of municipal affairs. This is to be a public hearing, which the Council voted Tuesday should go to Avenue Twenty-six and Workman street. Proponents of the site at Broadway and Griffin's avenue urged that the subject should be reopened as they had been defeated in the matter of the site allowed in which the site their petition. It appeared that a letter had been written by Council Clerk Carroll, at the request of Councilman Andrews, stating that no petitions would be received by the Council before June 1, but this had been a mere mis-understanding. On the 15th inst., the petition for the Workman-street site was filed, this being the date originally stated for all petitions to be filed. These petitioners objected to repeat the petition. Rev. W. E. Franklin Irvine injected a new issue by declaring that a lot at Hancock and North Broadway is being urged as a compromise location. After two hours of discussion in which all the members of the council were present and participated, it was decided that the original petition as filed should stand and that the Broadway and Griffin's avenue petition shall be filed by noon today with only the signature of the author of the petition. Among the compromises sites was eliminated. The City Engineer is to check up the frontages represented on each petition, and the Council is to stand by the majority frontage showing thus made.

RATES FIXED.
UNION HOLLOW-WOOD WATER.
The City Council in an adjourned session yesterday afternoon voted to sustain the report of the Water Commission on the water rate fixed by the Public Utilities Commission for the Union Hollow-Wood Water Company. These rates are a minimum of \$1.40 for the first 200 cubic feet of water per month, eleven and one-half cents for each additional 100 cubic feet of water, or 11.40 per 100 cubic feet for irrigation water and seven and one-half cents per 100 cubic feet for any water in excess of 800 feet.

Reed presented a minority report, in which he asked for a reconsideration of the rates set by the Public Utilities Board on the basis of its schedule of rates. He said the water company had an item of \$50,000 in its inventory formatters; that the company charges the consumers \$12 for meters, main, piping, valves, fittings, and the connection and that the amount leaves the company a net profit of \$7.50 on each meter installed; but that when this is done, the water used in pumping costs \$1.00 per meter for which he paid and that the company asks that the total price be included in the estimate on which its rates shall be fixed so as to give 10 per cent. on the plant's value.

The other members of the council voted not to consider the rates made by the board. The ordinance passed for this schedule will go before the council next Tuesday.

PUBLIC NUISANCE.

NOISE STREET HOODLUMS.

Mr. and Mrs. Roy Tie, who conduct the Auditor Hotel, a place of vice, on Fifth and Crocker streets, and others, appeared before the Public Welfare Committee of the City Council yesterday and said that the district in which street speaking is prohibited to be extended so as to include the entire distance of one block on either side of Fifth street.

They complained that night crowds assemble on Crocker street off of Fifth street, which is included in the restricted district, and there hold forth until midnight and sometime until 1 or 2 o'clock in the morning, and become a public nuisance. The police, who are called to the scene, usually are railed for houses for seats, which litter up in the streets. They say that they have applied the police with it in securing there a public holding place on the reservation grounds.

The Playground Commission yesterday received notification from the Harbor Commission that a generous portion of the proposed 573-acre tract to be created at Terminal Island will be allotted to the Playground Commission, and that the Harbor Commission will gladly co-operate with it in securing there a public holding place on the reservation grounds.

The Playground Commission yesterday adopted a resolution urging the City Council to immediately authorize the procedure of an exchange of the property of the San Gabriel River and the swampy conditions of the land bordering it.

Members of the committee expressed themselves as being in favor of the exchange, particularly in which public speaking may be done, and prohibiting it in all other parts of the city. Los Angeles street signs first to the Plaza will be changed to being wholesale districts in which the speaking becomes a nuisance. It was decided to ask the city thereby will save a large amount of money.

The Council's Legislative Committee has decided to meet Wednesday night at 8 o'clock at the Auditorium, and the meeting will be open to the public.

Members of the committee com-

plaint is made and meanwhile steps will be taken to shape up some legislation on the lines discussed.

WILL THEY DO IT?

Councilman Andrews yesterday made a pie, when the Legislative Committee named the men whom it will recommend to the City Council for appointment for the purpose of revising the city building ordinances, that they should be urged to do the work without compensation, as a matter of patriotism, the various members of the various commissions to serve in view of the financial straits of the city.

It was pointed out that the preparation of the present building ordinance required six months' time, and that probably nine months would be required for the work to be completed. After the recommendations were made the proposition was put up to Councilman Andrews that as the city is hard-pressed for funds and saving appropriations on all sides the Councilman agrees to serve without pay for six months.

"I'll do it if the other Councilmen will agree to it," declared Andrews. "I come pretty nearly serving the city for nothing, and I will do it for several years. Yes, I'll serve without salary if the others will."

THEY WILL CONFER.

HUNTINGTON AND COUNCIL.

Through Attorney Dunn a reply was sent by H. E. Huntington yesterday to Councilman Lusk as chairman of a special committee appointed by the City Council to take up the subject of the purchase of the Los Angeles street railway lines, stating that Huntington can meet the committee any morning during the next few days to discuss any possible meeting will be arranged for tomorrow.

Councilman Lusk indicated yesterday that he considered it absolutely useless to take up the subject of municipal ownership of street railways at this time, as it was not reasonable to expect the Huntington branch to be sold to the city.

The council clerk was favored with a withering look and the woman turned away.

This was a sort of preliminary to the action of the Legislative Committee of the City Council, yesterday, in preparing for a show of spiritualists to appear before the committee of municipal affairs. This is to be a public hearing, which the Council voted Tuesday should go to Avenue Twenty-six and Workman street. Proponents of the site at Broadway and Griffin's avenue urged that the subject should be reopened as they had been defeated in the matter of the site allowed in which the site their petition. It appeared that a letter had been written by Council Clerk Carroll, at the request of Councilman Andrews, stating that no petitions would be received by the Council before June 1, but this had been a mere mis-understanding. On the 15th inst., the petition for the Workman-street site was filed, this being the date originally stated for all petitions to be filed. These petitioners objected to repeat the petition. Rev. W. E. Franklin Irvine injected a new issue by declaring that a lot at Hancock and North Broadway is being urged as a compromise location. After two hours of discussion in which all the members of the council were present and participated, it was decided that the original petition as filed should stand and that the Broadway and Griffin's avenue petition shall be filed by noon today with only the signature of the author of the petition. Among the compromises sites was eliminated. The City Engineer is to check up the frontages represented on each petition, and the Council is to stand by the majority frontage showing thus made.

LIBRARY SITE FIGHT.

East Side people had a spirited contest before the City Council yesterday afternoon over the proposition of reopening the contest for a site for the new branch public library, which the Council voted Tuesday should go to Avenue Twenty-six and Workman street. Proponents of the site at Broadway and Griffin's avenue urged that the subject should be reopened as they had been defeated in the matter of the site allowed in which the site their petition. It appeared that a letter had been written by Council Clerk Carroll, at the request of Councilman Andrews, stating that no petitions would be received by the Council before June 1, but this had been a mere mis-understanding. On the 15th inst., the petition for the Workman-street site was filed, this being the date originally stated for all petitions to be filed. These petitioners objected to repeat the petition. Rev. W. E. Franklin Irvine injected a new issue by declaring that a lot at Hancock and North Broadway is being urged as a compromise location. After two hours of discussion in which all the members of the council were present and participated, it was decided that the original petition as filed should stand and that the Broadway and Griffin's avenue petition shall be filed by noon today with only the signature of the author of the petition. Among the compromises sites was eliminated. The City Engineer is to check up the frontages represented on each petition, and the Council is to stand by the majority frontage showing thus made.

FATE IN BALANCE.

PRISON OR SWEDISHHEART.

The Board of Education has over the shoulder of Raymond Bruce, a youth who violated his parole by going on a joy-ride in a stolen auto. Bruce appeared before the Juvenile Court yesterday, and refusing an attorney conducted his own case to good effect.

His sweetheart, Irene Klesney, who is employed in a candy store, produced his behalf and by her frank repartees materially assisted Bruce in making out a case. Bruce admitted he was intoxicated on the night of his parole and Miss Klesney corroborated him and said further that Bruce went on the ride at the invitation of another man.

The effect of this testimony was to show that the boy was not responsible for the theft of the auto and its consequent damage in a collision with another machine. He told the court he desired to marry Miss Klesney.

Bruce blames all his trouble to drink. He fell in with an ex-convict and two burglaries at a dye establishment are charged up to them. The boy is a member of the gang.

The location of his parole is a serious slip for the youth. What is in store for him and whether Miss Klesney's heart will be sad or glad, depends on the court's action next Monday, when McLaughlin represents the executive.

COURTHOUSE NOTES.

BREVITIES MISCELLANEOUS.

REVEREES NAMED. Three residents of the city were named yesterday to appraise the property involved in the condemnation suit of the city of Los Angeles against John W. Buckley for his residence on San Pedro street from Fifth to Thirtieth streets, on the ground that it has no franchise to operate, will probably be submitted on briefs.

Assistant City Attorney Cryer and Attorney Sterry, the latter representing the company, will confer shortly on the stipulation of facts.

The suit against the Los Angeles Railway Corporation to oust the company from its occupancy of San Pedro street from Fifth to Thirtieth streets, on the ground that it has no franchise to operate, will probably be submitted on briefs.

GUARANTY IS READY TO BUILD.

Passes Through Ventura Removes Obstacles.

To Be Pushed to Finish, Is Announcement.

Operators Keep Close Watch on Fullerton.

The Guaranty Pipe Line Company's pipes are now in a fair way, according to address from Ventura yesterday.

The Board of Supervisors has granted it a franchise to build through Ventura county, and, at the Los Angeles office, it was announced that nothing now stands in the way to prevent the company from going ahead with its projected pipe line and pushing it to an early completion.

At some time the Guaranty was threatened and delayed by reason of suits instituted by the Pacific Pipe Line Company, but after these suits were filed in the Los Angeles county court they were declared to be without merit.

The Guaranty is now demanding payment from the Pacific for \$234,000, the suit not yet to be adjudicated. It will in no way deter the company from proceeding with the construction.

Advises Fullerton Reservoir.

Industries in the oil fields of the northern part of Orange county in which are now being drilled will have a far-reaching influence among oil operators. In consequence, operators in these fields daily expect a long-term watch, and are prepared to meet the arrival of new wells on a half-dozen new properties.

These wells will mean the beginning of work on a number of new wells now operating in the area and by a few who have moved back in order to let their neighbors prove their ground.

There is a drilling well of the United in the Sterns and Goodman field in the extreme south of the oil area. The well is being drilled to the probable oil sandstone strata. The Industrial Amalgamated, Union Oil Company are exploring new fields.

Information from the Fullerton oil men that the McAndrews Oil Company is now completing a rig, and will begin early next month, will be drilled on site. It is located on the same property as the existing well, and the probable oil sandstone strata.

The Industrial Amalgamated, Union Oil Company running from the Amalgamated wells traverses the property of a number of people, who are all anxious to begin drilling operations.

On the West Side.

Information from the Pyramidal Oil Company, which was recently engaged to put the well in 2000 feet, where the heavy oil pressure that gave trouble before was again encountered.

The oil was so strong that at first it forced the 2000 foot drill entirely out of the hole, disengaging the rotary equipment. On another occasion while the hose was detached from the top of the former, it became entangled in the hole. Bits have been stuck, and but little progress is being made in making progress.

There is also being experienced on the property of the Rex Midway in the perforated pipe, due to the formation lying above the ground, in which the pipe was stuck.

The last of this well shows twelve feet of mud at 2225 feet depth. Last week, however, was enough money thrown away in the trial of Fred H. Thompson to pay the salary of an additional United States Judge (\$6000) for a year.

It is estimated that within the last year no less than \$10,000 has been wasted in witness fees that might have been saved if cases could have been taken up and disposed of when originally set.

SELECT THEIR PRISONS.

Request to Transfer Jail Sentence Made by Men Convicted of Imperial Valley Land Frauds.

United States Atty.-Gen. Wickenden asked the local Federal officials by telegraph yesterday if arrangements could be made to confine the Chaplin brothers, Frank N. and David H. Chaplin, in the Solano County Jail for the nine-months' term imposed by Judge Welborn of the United States District Court.

The case of the Chaplins, who live in the Imperial Valley, was one of the most celebrated in the recent history of the United States Court. They were found guilty by a jury of inducing dummy entrymen to go to the public lands of the state, when they would go through the motions of buying the relinquishments at a ridiculously low price. In addition to receiving a prison sentence each was fined \$1000. The case was carried to the United States Circuit Court of Appeals, where the judgment of the lower court was affirmed.

Since the trial the Chaplins have been in custody at the West Adams jail, and are being tried to the Solano County Jail, near their home, instead of coming to Los Angeles. It is expected they will be accommodated there.

David H. Chaplin called at the office of the clerk of the United States District Court a few days ago to pay the \$2000 fine, but as the mandate had not yet been received from the Circuit Court of Appeals his money was not accepted.

Spring in Yosemite Valley.

Most unusually the weather in the Big Trees is open, the air is clear and bright, and the white valley invites you to come to Los Angeles. 100 p.m. daily Standard express direct or service. The easy way—SOUTHERN PACIFIC.

Some Canyon Studies—Back of Beautiful Beverly Hills

Sketched by Artist C. G. Putnam

Comparatively few Los Angeles people realize the wonderfully picturesque wild, primitive scenic canyon environment that lies just back of the palatial homes at Beverly Hills. The sketches in this space were made from actual photographs, following an automobile trip through the various canyons. To live in close proximity to these beautiful wooded canyon-parks is indeed a privilege. It is one of the principal features of life at Beverly Hills. Some of these emerald vales are quite large and contain small ranches. None is more than five or six minutes auto distance from the residence district of Beverly Hills. All are wooded with live oaks, and hundreds of other varieties of trees and shrubbery. Wild flowers are abundant. Every canyon is fairly alive with quail, squirrels and many species of song birds. There are excellent well-kept auto roads in each canyon.

The writer would suggest for your Saturday afternoon or Sunday motor trip the delightful run out to Beverly Hills. The splendid new \$300,000 Beverly Hills Hotel is now open, and one of the finest dinners available in Southern California can be secured here at a moderate price. Authorities state that the Beverly Hills Hotel is the finest and most picturesquely located foothill hostelry in the Southwest. The trip to the district can be made by way of Hollywood and the "foothill boulevard" to the hotel—one of the finest scenic trips available hereabouts. Another and more direct route is via Wilshire Boulevard. If you go via street car, take Pacific Electric cars on Hill or Sixteenth street; you can also go via Hollywood, if you care to take the longer trip.

The quality test of a suburban residence district is the character of the building development. The activity that has taken place in the building line at Beverly Hills during the past year is little short of phenomenal. Practically every man who has located here has literally "combed Los Angeles and suburbs with a fine tooth comb" in his search for the ideal living place—before finally choosing Beverly Hills. Nearly three-quarters of a million dollars' worth of public improvements have been established. There are broad, stately petrolium boulevards, artistic park effects, a delightful water garden, thousands of ornamental trees and shrubs, a fine mountain water system, gas, electricity, telephones, sewers, etc. Not the least of Beverly Hills' residential advantages is the Los Angeles Town and Country Club House and grounds closely adjoining. Prices of lots are easily 50 per cent. lower than equally well improved property in any other section. Lots, 80x160 to 100x260 are priced at \$20 to \$30 per front foot. Any further information may be secured from the selling agents, W. M. Garland Company, 324 Pacific Electric Building, Sixth and Main streets, or at the office in Beverly Station.

DO IT Today—Sure

While you have the opportunity. Delay no longer! It will never again be possible to buy the best lots, "close to Adams"—in the limit of the 5-cent fare—at today's prices and terms in Victor G. Kleinberger Company's new "West Adams and Washington Boulevard Tract." And it will never again be possible to buy strictly high-grade lots—any place—"Our Way," without interest and your taxes paid. Investors and home-seekers! Compare "Our Proposition" with every other—in every direction. You'll find, positively, that these beautiful home sites, close to the finest residence thoroughfare of Los Angeles, are actually as low in price, and on better terms than lots in the "Cheap Districts." Why go out in the most ordinary localities, and pay top prices, with interest, when you can buy the "Best, Close to Adams," at only \$590 and up—\$20 cash, \$10 per month—no interest, no taxes, for the first 2 years.

"Do It Today, and the Profit Is Yours"
Take the "West Adams" through car direct to Tract Office right at end of line. Be sure it's "Our Own Office."

Los Angeles (Loco Ahng-hay-lais.)

Edited at the Postoffice as mail matter of Class II.

THE POSSIBLE.

San Francisco has been informed that British warships will be in that city for the exposition. If it please Secretariat, it is not impossible that the British vessels may have only a short journey to make from near-by southern waters to reach the Golden Gate.

OUR PRIDE.

A Danish author who makes his home wherever his hat is off and who hangs it everywhere says that Los Angeles is the rarest city of homes in the world. This is not news to us who share the wine and warmth of those blessed heavens where mind and heart are at home in life, but it is a joy to have this quality recognized.

A LOVELY CITY.

Gladly throw wide the shining portals of a beautiful city Thursday. She abandoned herself to the joy of ten thousand admirers and they went away with the praises of the Jewel City within their hearts and on their lips. The growth of Glendale has been of a fine normal quality, backed by the ardor of an excellent class of citizens.

NOT SO BAD.

Three hundred Pasadena school children would not be vaccinated, but they are permitted to return to school, anyway. Parents should be willing that their children conform to every rule that makes for the common protection of all little people, but smallpox is certainly one of the least of our troubles in this incomparable California.

LIVE.

It must be a great pleasure to Long Beach to entertain the State bankers this week and an equal pleasure to the men of finance to be entertained by the good people down there. Long Beach certainly has the commercial atmosphere. It bristles with business as a cactus bristles with thorns. It is even as the cholla, the cactus with a ball of thorns which lurks them at the passer-by on the friendless suspicion that something is in sight.

AY BE SOLVED.

The problem of disposing of the thousands of laborers who will be out of a job when the Panama Canal shall be completed may be solved by transporting them to Alaska to build railroads between the coal fields and tidewater. They will no doubt enjoy the change. A man can work better where the weather is cold enough to inspire him to continuous exertion in order to keep warm than he can where prostrating heat invites him to take a nap between the strokes of his pick.

NF.

It was wicked in that charming young woman to put her name and address in a hundred packages of flap-jack flour unless she is willing to face the consequences of her delicious tormenting when the right answer comes from one of her hundred questionings. She might have known that the man condemned to flap-jack cakes is a desolate creature, and that such mischief is likely to impinge many vain dreams. Perhaps the right man will come and they will live happy ever after, or at least until Reno throws its shadow over the shining track of love.

POWER.

Six counties went before the State Highway Commission Wednesday to apply for shares in the highway fund. This is a sign of public health. The people have developed a sort of road conscience. It goes deep because it strikes out from the individual as a realized necessity. When an idea takes hold of all the people in this way realization is not far off. It is with a full appreciation of how this conscience extends to every part of the United States with present-day increased facilities and demands for rapid travel that The Times has undertaken to crystallize, organize and put this sentiment to work for a great ocean-to-ocean highway.

A SAD EXAMPLE.

A desert miner used profanity in open court when he was cross-examined by a lawyer at Riverside and narrowly escaped being jailed for contempt. It is quite probable that the miner was hardly aware of the awkwardness and bitterness of his speech. Profanity is an unavoidable habit that fixes itself in the consciousness of those who use it until it becomes like nature. It is so with all vice, until there is no hidden vice. Evil practice is never concealed. In the end it always betrays. Men live what they are. Nothing remains hidden. To be sound at the heart is the one guarantee of security. That alone makes for safe conduct.

BREAK, BREAK, BREAK!

Farum T. Fish, the doughty young aeronaut, was on the horns of a dilemma when he had to choose between breaking a Chicago city ordinance to save his neck or breaking his neck to preserve a city ordinance. He naturally preferred a safe descent in the forbidden park to a heroic sacrifice to the glory of red tape.

City officials should make allowances for the laws of gravity, which are really very dangerous to disregard—possibly more vital than those made to protect the sanctity of Chicago parks. Evidently, the Pacific Coast is the place for Mr. Fish. In California record-breaking by the boys and heart-breaking by the girls are more in vogue than fracturing heads or smashing park ordinances.

SAN FRANCISCO AND SAN DIEGO.
In contradistinction to San Diego's attitude San Francisco has arranged a reception to Emma Goldman, the anarchist whom the San Diegans drove out of town. San Francisco has always done these things and that is why she is where she is today, fettered with the clanking leg-irons of labor unionism, McCarthyism and Tweedsmoorism, unable to keep step with open-shop cities.

The Times has ever advocated the use of only legal means—for the punishment of crime and the preservation of order. With its building blown into the air, with twenty of its faithful workmen and friends murdered by secret assassination, and with the home of its principal proprietor escaping only by accident or by God's providence, it demanded only that the law should take its course and that even and exact justice should be done.

From the arrest of the McNamaras until their conviction by confession The Times carefully abstained from editorial or other intimation of their depravity.

Notwithstanding The Times is the foe of disorder and is in favor of only lawful methods in dealing with criminals, it still deeply sympathizes with the good citizens of their depravity.

The city of San Diego has been invaded by a gang of Apaches who shot policemen, plotted to poison the water supply, assaulted unarmed citizens, threatened women and robbed isolated homes and menaced the city with pillage and fire. It was a condition in which the dictatorial processes of the law seemed inadequate to avert or deal with the impending disaster. The refuse ruffians of Central California had congregated in San Diego with evil intent. It was up to the men of San Diego to protect their homes. Accusation and imprisonment of the scoundrels only resulted in crowding the jails with men to whom imprisonment was neither a deterrent nor a disgrace. The men of San Diego appreciated the necessities of the situation and dealt with it.

Yes, The Times can sympathize with the people of San Diego, now threatened with wholesale assassination and untold horrors. The Times for years has been bounded by unscrupulous enemies—and is now; by enemies who boast that they will "get it" in one way, if not in another. When a human being has endured years of this sort of thing, when one knows what it is to see his property blown to atoms and twenty of his friends killed at one stroke by ruthless villains, one cannot fail to realize the gravity and the intensity of the strain to which San Diego is now subjected.

San Diego, may you stand fast and may God be with you!

IS THIEF ROBBERY?

The inherent and incurable vice of socialism as expressed in the maxim of Prudhomme that "property in robbery" is that it takes away the incentive to exertion. Does anybody in the world work at anything in the world merely for the joy of working? The motto, "by industry we thrive," implies that thriving is the reward of industry, and thriving means the accumulation of property and, in a material sense, does not mean anything else. The security of property is the foundation of order. Remove that security and society would relapse into that barbarism which Rousseau praised sentimentally. Yet, Rousseau was over anxious and persistent in his efforts to incase his store of francs.

American workers do not want a paternal government. They do not expect a government that will act as a job-chaser for incapable. They do not pine for a ruler with a scepter in one hand and a ruling bottle in the other. They are able and willing to take care of themselves. The reason that there are so many unemployed men is because there are so many square timbers trying to fit themselves into round holes. There is plenty of work for men who are able to do anything that the world wants done, but there is no great demand for jacks of all trades who are masters of none. Almost any man in good health whose muscles are not fiscid from idleness can find work on a farm or a road, and if he will let whisky alone he can in a year lay by enough to support him until he can master a trade. The trouble with the Socialist is that he wants a soft job. He wants to be a book-keeper, or a clerk, or a watchman, or a time-keeper, or a wagon-driver, instead of a hewer of wood or a drawer of water. Nobody can condemn his aspirations. They should be encouraged rather than checked. But they should be encouraged in the direction of making honest efforts to advance himself honorably, and not in the direction of invoking anathemas upon those who have succeeded where he has failed.

CHARACTER AND BEHAVIOR.

An English political economist, commenting on the spread of trades-unionism, syndicalism and capitalistic combinations, has declared that the whole tendency of modern life is to extinguish individuality. If this be so it must end disastrously, since on individuality depends character, and on character the stamina of the race of men. Perhaps our modern system of education is at fault in laying too much stress on behavior and deportment and not enough on character and self-initiative. Apparently, too, the present trend of political thought, as embodied in so-called progressive and popular legislation, is another proof that man no longer cares to stand firmly on his own feet—that he fears to believe or attempt anything until it has been passed on by the navel court of popular prejudice or convenience.

Yet it is really the personal character of each citizen that makes or unmakes a nation. Without character we may love or hate, but our love will only be soft sentiment, and our hate will degenerate into spite and ill-will. Once steadfast courage ranked higher than convenience or present comfort; now we prefer to follow the path of least resistance. This is popularly considered good behavior.

Porfirio Diaz was a man of strong character and was able to make a nation out of the scattered tribes of Mexico. Madero is a man of excellent behavior and deportment, but his strength of character has yet to be proven.

As a matter of fact, in the building of character legislation is much overrated. A strong nation requires less law-making than a weak one, and so a multiplication of statutes and ordinances in a state is a self-confession of weakness. This looking to government for boons and benefits, which such citizens ought to be working for on his own initiative, is killing our self-reliance. In the long run the government itself must

A Striking Beauty.

BURDETTE AT THE BAT.

College Poetry.

I appear to be writing a great deal about the State University, but you see it is an incubator of ideas, and twenty-four hours under the oak gives a man more themes than he can write out in a year. Quite recently I told of the things at commencement that delighted me. But save on Burbank's model experimental garden and in heaven there is no rose without a thorn, no cactus without its spike. Every onion hath its odor, and every orchard its dog. At least it used to have. Some things there were at commencement that saddened me to the tear ducts.

One thing in the course of the exercises disappointed me; two things there were that made my heart ache with sorrow. The president announced that the Coors prize for poetry would not be awarded because none of the poems submitted in competition during the year were deemed worthy of the prize. If, in the sweet enthusiasm of the twenties, in the glory of such environment, under the inspiration of such lofty fellowship, in the shadow of the hills and the oaks, one cannot write poetry, where shall we find Parnassus?

Not a University Course.

You see, poetry is a thing either too simple or too lofty to be taught in a university course. I have an idea that maybe "Sordello" might be embodied in a course of college training. "Sordello" is poetry, is it not? It must be; it isn't anything else. I think the candidate for the professor of doctor of philosophy who wrote the thesis on "The Relation of the Zona Pellenca to the Formation of the Fertilization Membrane in the Egg of the Strongylocentrotus Purpuratus" might have written "Sordello" in the same time and with the same study. But I doubt if any person can be taught at college to write "Midsummer Night's Dream," "Tempest" or "Twelfth Night."

On the other hand, the trick of writing poetry is so simple that it is worth a place in a college curriculum. After the poet has hatched the first one, all the rest is easy. Everything is an egg for poetic incubation—real eggs, cold storage eggs, nest-founded eggs, porcelain nest eggs, door knobs, old clay-pipe bowls, little green apples, golf balls—anything tolerably white and round.

Songs in Many Keys.

Hence, you find the poet—he or she—writing one day on the tragedy of "Jephtha's Daughter" and the next on "The Admission of Arizona into the Union," followed by "The Birth of the Coral Insect" and "The Death of Water" and "The Pacific Ocean" and a tiny monobobette spring in the sky over a tiny Niagara Falls, the State of Rhode Island and the Universe. The poet sits on any old theme patient as the little brown hen. Nay, patienter. For in the course of time the little brown hen, becoming discouraged and desperate, gives up the incubator of the bureau knob, flies the coop with wrathful cackles, assails and conquers the matronly Buff Cochon, kidnaps her gigantic brood and goes chucking around the barnyard, mother de jure of a lot of feathered monsters, big as herself.

The Clue of the Maze.

But the poet always hatches something out of whatever he gets down upon. You see, when poet has been reduced to a great difficulty in writing poetry is in the rhymes. The first line of a poem is the easiest thing, you know. "Oh, that her heart might be my dwelling place;" that's poetry; certainly it isn't fact. Now you set your fingers drumming on the desk to find a rhyme for "dwelling place"—second base," that rhymes, but it doesn't fit; nor does "rabbit chase," nor "hatcher face," nor "leggin lace," nor "donkey ride." There must be not only rhyme, but literary stamp.

After selecting the subject of your poem, you should write down in a long column at the left-hand margin of the page a list of appropriate rhymes—moon, June; grove, rove; bound, sound; wind, find; trees' breeze; zephyr, heifer; green, sheen; wonder, thunder; coffee, toffee, and so on. Then, beginning with your rhymes, you write the lines backward, counting the feet on your fingers, and when you reach the opening line of the poem, the line is fixed and you don't have to agonize over terminal rhyme. I wish I could get the poet to teach poetry in the university. I'd never do another stroke of work in my life, and I'd never have anything to do until tomorrow.

"But maybe the lines, constructed in that backward fashion, wouldn't have any sense!"

"Sense?" Who was talking about sense? I was teaching you how to write poetry.

University Humor.

And the other clot that fell heavily upon the coffin of bright anticipation was this. There is an S. C. Irving prize for the best example of "American humor" emanating from the student body during the year. The voice of the president is not being heard in the judgment of the judges and queen of undergraduate mirth was pathetically trodled. So he announced that the specimens of humor submitted in competition for this prize were provender for tears rather than food for smiles. They were unworthy of consideration, and no prize would be awarded.

Well; maybe they didn't have the right kind of a jury. It takes an undergraduate to fully appreciate and rightly estimate the newest values of American humor. However, I never read a book called "College Pranks"; No, I am not going to comment upon it. I merely mention the title of the book. That's all. The copy in my possession was published in 1852. Every year since that date has been the same book issued under a different name. In a list of the "Hundred Worst Books"—which has not yet been printed—it appears one hundred times.

It is a cosy nook down by the sandy waters of the Serpentine that the statue has made its appearance. Peter Pan is sitting on the stump of a tree blowing his pipe, surrounded by fairies, mice and squirrels.

It is the work of the famous sculptor, Sir George Frampton; and the immortal boy who would not grow up is receiving thousands of visitors daily. Barrie did not want the idea bisected forth or the statue unveiled with a public ceremony; he just wanted to spring a surprise on the youngsters.

The organization which produces an automobile means more to purchasers than the specifications of the car

Model Six sedan, 8-passenger tourer,
top folding, \$1150.

By themselves, Paige specifications and construction are enough to make it distinctly the best automobile in its price field.

The Paige organization, the entire personnel of the Paige-Detroit Motor Car Company, is a staunch guarantee of the honest construction of every Paige automobile—and guarantee of careful selection of materials—a guarantee of high-grade workmanship—a guarantee of stability and permanence. And stability and permanence as typified in such an organization are of vital importance to the car owner.

The PAIGE Car

Not a car of mushroom growth, it is not designed simply to sell, it has been developed carefully and honestly by men who know every requirement and every possibility of the \$1150 field.

Opposite the Paige car part by part with every other car in the second dollar class, and it will sell itself to you even without that new strength of the organization back of it. And when you buy your Paige, keep in mind the fact that it is produced by an organization of men comprising the most experienced technical brains in America, composed of some of America's biggest business men, who now collectively and individually, vouch for the honest construction of your car and a high grade service to Paige owners.

None of its many models, all built on the one Paige chassis and with the same power plant, the Paige is a beautiful, sturdy, reliable automobile. Its equipment is unusually complete. If you will come to us, we will give you the value you can buy for \$1150 and investigate the Paige thoroughly.

TOP AND WINDSHIELD WITH ALL MODELS
We thank you for the Paige. If you are not an expert in automobile construction, bring us with you. The more a man knows about automobiles, the more he appreciates the Paige.

WHIFFS FROM THE OLD SPORT PIPE

If Hap Hogan had begun that eighth inning batting rally one round sooner, he might have won yesterday's ball game after all.

Cheek's Goat.

Hap made an amusing attempt to get the goat of Pitcher Cheek in that eighth session.

Burrell was at bat and Cheek was looking forward to a pleasant meal of a weak-hitting right-handed pitcher and catcher who were to follow. But as he glanced up, there stood Hap's old dragon guard—Brasher and Stinson—carrying their bats and gazing dreamily out at the back fence, which had so often battered before. Hap had demanded the bugle for the grand charge.

It was both a clever and a stunning dramatic effect; but Cheek was too old a bird, and proceeded to mow down the mighty pinch hitters with ease and eclat.

Everybody's Doin' It.

Judging from the newspapers yesterday neither John Kilbane nor Long are likely to win any trip around the world in "Popular contests." Every sport commentator seems to have made a running jump and lit on the neck of one or the other or both.

Johney is really a good fellow, but he will never be popular as a fighter. He is too fastidious about being hurt and he is too standofish with the bugs who hang around the training quarters.

Showed Promise.

Howard Morrow's fight with Sailor Petrosky was about as harmless as all his other cream puff exhibitions. Well, come on. Tommy Ryan, tell us that Morrow "showed promise."

Pete's Speed.

Pete Daley is developing into a first-class base stealer. He stole both second and third in the first inning yesterday, but Heinz Heimstaller, who followed him, could not send him in.

Dolly Was There.

Dolly Gray surprised some of the fans yesterday by running out the last two runs to fetch him in the ninth inning. These fan outs happened with Dillon on second and but one out.

Heine Won Game.

Heine won the game for the Americans, but his record of his two runs. He whacked out two timely doubles the day before so his rep as a pinch hitter is increasing.

Hoop at Second.

When it comes to playing second base Hoop seems to be about as good as anyone in the league. He had few chances yesterday but his double in the ninth scored the two runs Vernon made.

Bergen's Star Play.

Bergen's fine running catch back of second of Burrell's fly in the second put Bayless on the blink, for he could not believe his eyes in time to prevent himself from being thrown out on a double play.

Still Some Game.

The crowd of 2500 fans yesterday showed that the second month of the season is more than holding its own in the way of attendance. Everyone is interested this week in seeing whether or not Vernon can hold its lead until Sunday night.

Brush Soaked.

Brush batted for Carson in the eighth, but did not get a chance to whack the ball for Cheek soaked him with the ball while he was second ball pitched. Brush was about the sorest man on the ground.

Burn Finger.

Braeshear batted for Carson in the eighth, but did not get a chance to whack the ball for Cheek soaked him with the ball while he was second ball pitched. Brush was about the sorest man on the ground.

There will be no fees of any kind. The contestants will not be required

Young Athletes Who Seek Honors.

The Greatest Ever.

Horde of Boys Enter "The Times" BIG MEET.

Field Day to Be Held Next Week, in Which Grammar School Lads Will Be Awarded Free Vacations at "The Times" Catalina Camp, Will Be Biggest Athletic Affair of Its Kind Ever Held in the West.

BY EDMUND W. PUGH.

NE week from tomorrow, the greatest grammar school track and field meet ever held in the West is to be conducted by The Times at the Y. M. C. A. grounds, at Euclid and Stephenson avenues.

Between 600 and 700 youthful athletes are to strive for the championships of Southern California and among the place winners will be distributed thirty-two free trips, each of which means a twelve-day vacation to The Times Catalina Camp.

During the last five months 125 local meets have been conducted by The Times in this city and in various places throughout the Southwest. In those fields nearly 15,000 boys participated and the victory was awarded free vacations at the popular Catalina Camp.

Next week the promotion of athletics among grammar school boys by The Times will culminate in a meet that will be open to every grammar school boy in the Southwest. This means that the pick of the rising generation will get together to test their athletic skill and strength and it is probable that several national records will be hung up in the various events. From present indications the number of entries will exceed 600—just where they will stop nobody knows, for any grammar school boy who shows up at the grounds will be eligible to compete.

The contestants will be divided into two sections—junior and senior. Boys five feet tall and under will be eligible to compete in the junior class and boys who look up over the five-foot mark will be included in the senior class.

There will be eight events in the senior division: The 50-yard dash, 100-yard dash, 332-yard dash, 100-yard low hurdles, broad jump, high jump, seven-pound shot put, high jump and half-mile relay. In each relay there will be four boys on a team each of whom will run 220 yards.

VACATION FOR THIRTY-TWO BOYS.

In each event in both divisions the winners of first and second places will be awarded a twelve-day free vacation at The Times Catalina Camp. Each member of the winning relay team will be counted as a first place winner. A boy who wins a first or second place will not be allowed to compete in the other events. Under this arrangement thirty-two boys will win the coveted trips.

In the suburban meets that have been held the first place winners were awarded twelve-day trips. If any of those boys again carry off first honors they will receive the first place ribbons. In the city meets that have been conducted, eight-day trips were awarded. Should any of those boys again take first place their stay at the Camp will be extended four days.

That a vacation at The Times Catalina Camp comes pretty close to the thing most desired by the grammar school boy at this time of the year is shown by the interest that has been developed by the numerous local meets that already have been held and the enthusiasm that pervades all the schools in connection with the big meet next week.

There will be no fees of any kind. The contestants will not be required

OWLS AND APES TO MEET ON DIAMOND.

This afternoon the much-heralded baseball game between the Apes and the Owls of Occidental College is to be pulled off on the Tiger diamond and the game is expected to prove the biggest scream ever perpetrated on that field, not even excepting the world-famous football games which have been annual feature for several seasons.

As each team was chosen by the members of the opposing fraternity, the two sides are naturally as far apart as possible, thoughts are usually furthest from the diamond. The Owls will have Angus and Jones for a battery. The Apes are placing their hopes on V. C. Burrell, the 105-pounds football player, who will officiate on the mound for them.

The game will begin at 4 o'clock and will stop at 6.

The first game of the series will be played: the freshmen and sophomores on Monday, the juniors and seniors on Wednesday, and the winners in the finals on Friday, the last day of school.

HORINE TO JUMP AMONG BEANEATERS.

(Special to Federal Wireless Telegraph Line.)

BOSTON, May 22.—The fact that George Horine, the sensational California jumper, is to take part in the Olympic try-outs here in June has aroused unusual interest in those events.

One athletic authority said in speaking of the matter today:

"We are anxious to see Horine jump, as it will be a great card for our Olympic try-out if he and Sam Lawrence show in the same competition. If he comes, he should be asked to bring along one of the jumpers who has invented it. It may be something worth introducing here, especially if the bar will stay in a wind.

It is a question with us as to whether or not he has reached his limit."

"Let us hope that the day he appears in the Harvard stadium the conditions will be favorable," the authority said, "and that he will break his record to his record of six feet seven inches. A month or two ago most followers of sport would probably have conceded that they could not expect anything above a record of seven feet or more than a jumper who could clear 6 feet 7 inches."

EXTENSIVE ATHLETIC IMPROVEMENTS AT YALE

(Special to Federal Wireless Telegraph Line.)

NEW HAVEN (Ct.), May 23.—Complete plans for the building of the new Yale stadium, to seat 20,000 spectators, will be announced Saturday morning. The stadium will be a modern football and baseball diamond, with tennis courts, baseball diamonds, football and other fields for outdoor sports, will be announced to start Saturday morning.

Besides this, a new baseball field, seating 15,000 persons, and a modern clubhouse will be erected. The total cost is estimated at \$700,000. Of this amount the stadium will cost \$200,000, the eighty-five acres of land opposite the present Yale field will cost \$100,000, the clubhouse about \$100,000, and the new baseball stand on the old field about \$50,000. The rest of the sum will be spent in general development of the grounds.

The stadium will be the largest in the country, and will be the largest in the Southwest. Bayless showed his class in a fine running catch of Dillon's fly to right in the second inning, and Patterson was the star of the day, making a brilliant stop of Dillon's nasty bouncing grounder in the fifth and his equally good assist to first base to retire the runner.

The hitting was so light that circus plays were scarce. Cheek was at his best, and for eight innings allowed the Tigers but three singles. Only two of them reached second base during the game.

WORLD TURNED HEAVERS' DUEL WON BY CHEEK.

Local Flinger Holds Tigers to Six Swats.

Vernon Scars Angels With Ninth Inning Rally.

Fine Fielding by Berger and Metzger Is Feature.

BY GREGORY OLIVER.

Los Angeles, 2; Vernon, 2.

Any one who thinks Cheek is a bum pitcher should have seen him work yesterday.

Vernon got but six hits off him and but for a batless rally in the ninth, the Tigers would have been shut out.

Many nice games out there this year, but none nicer than the one yesterday. Light hitting, fine fielding, a close score. Looked like Los Angeles won all the way but in the ninth the Tigers seemed to take a shot of hop and skip out at the plate, singles and a double off Cheek and there a terrific scare into the locals, but could not quite get up in time.

Hard luck, some persons said, but the others thought it was too much like检查. Depends on which one you liked.

Cheek pitched beautiful ball, and the Tigers never had a chance until the last inning. Then Burrell, who is really a good pinch hitter, could not connect with the long run on second base and the battle was over.

Never a sign of an error. The way the team played the ball would make any one sit up and take notice. Berger made a great running catch of Burrell's pop fly back of second in the second inning and recovered him in time to double out Bayless at first.

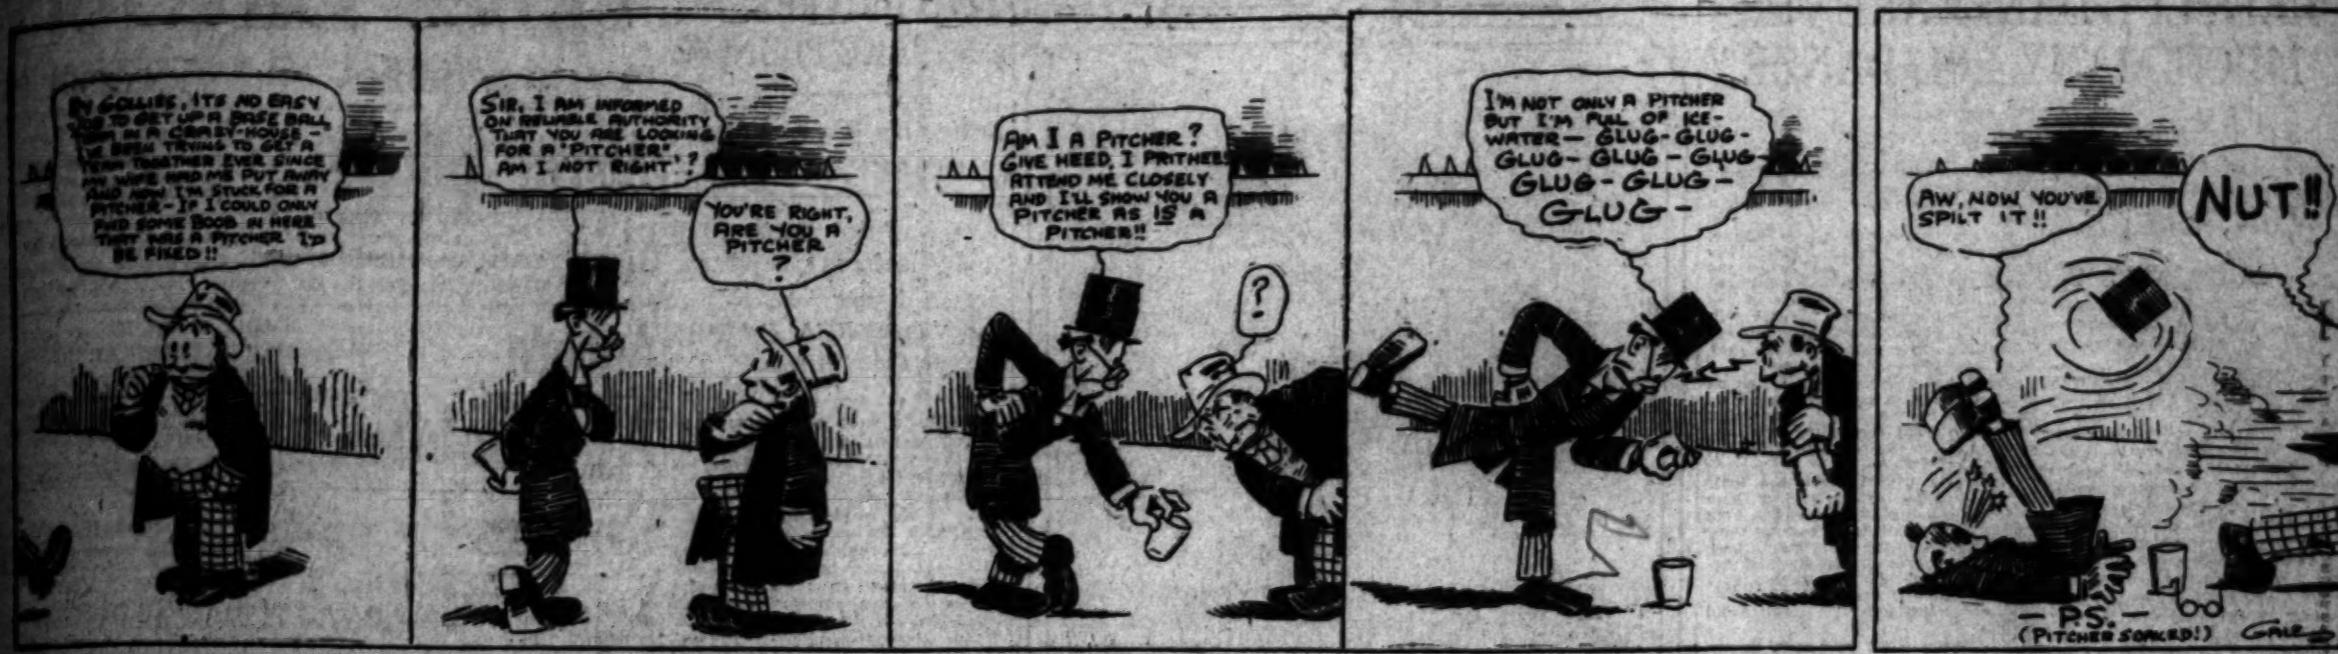

This was the star feature of the day, but Metzger made an equally great one in his running catch of the ball out near the second stand in the fourth inning. However, sit alone with a fine assist on Carson's grounder in the sixth inning.

The Angels did not have all the fine players, but they were in the limelight on several occasions. Bayless showed his class in a fine running catch of Dillon's fly to right in the second inning, and Patterson was the star of the day, making a brilliant stop of Dillon's nasty bouncing grounder in the fifth and his equally good assist to first base to retire the runner.

The hitting was so light that circus plays were scarce. Cheek was at his best, and for eight innings allowed the Tigers but three singles. Only two of them reached second base during the game.

Mr. Wad Is Getting Up a Ball Team Among the Boobs in the Nut Factory... All He Needs Is a Pitcher!

COUNTRY CLUB GOSSIP.

BY ALMA WHITAKER.

One of the second-round matches, definitely postponed, owing to Mr. Palmer's absence.

The Victoria club championship is however in strenuous progress, the young men's semi-final having been played off on Saturday, when the winners of the various matches were Hillman from Cameron, Fattes from Glendale, and that between Phil and S. P. Neal, Lyon winning.

The interesting matches are awaiting for Saturday and Sunday, between Marchett and Braly, and between Schneider and Armstrong, and Walton, each engaging

in a few private matches and having been very much activity during the week, although Woodcock and his party are awaiting to be seated at San Gabriel on Wednesday afternoon.

On the same day, the San Gabriel girls met in serious concourse, Miss Constance Clark presiding, when a series of matches for the manager was arranged.

The main part were Mrs. M. O. Smith, Mrs. E. B. Davis, Miss Shirley

the Margerie, Misses May, Wood, Miss Imogen Wood, Mrs. Van Dusen, Mrs. Roberts, and Mrs. and Miss Roberts.

There were the only two clubs having any concerted endeavor by women golfers, Calumet and Armandale.

At Armandale Mrs. V. J. Henry, Van Dyke are two who talk the golf game.

Another golf club, selected by the Great Country San Gabriel Country club organization, it was say, was formed on Saturday and Sunday with plans to go through the year, in fact.

It must be rather tiresome to play golf on Saturday and Sunday, to the course congested with pretty girls, as those days, and the conditions conform to the no-nonsense rule.

But, the San Gabriel and Bradburns and Bradburns.

H. M. Culver, "the dear old mouse" of the Victoria Golf Club of Los Angeles, is the winner of the W. M. Lewis trophy this year, a trophy put up by the club for the international championship.

The girls were between Culver and Mrs. Chancé, the former winning.

It is now known that Culver is the winner. Was the "victor" in reality.

He has now become his permanent owner.

The golf has been played on the Bradburns and Bradburns, and last year Morris Phillips, the Bradburns Country Club champion, beat H. M. Hilligan of Bradburns in the Bradburns Country Club chase.

The Bradburns still hang in the balance between Culver and Morris Phillips, the Bradburns having been in-

NEW SWIMMING CHAMP EXPECTED TO SHINE

BY A. P. NIGHT WIRE TO THE TIMES.
NEW YORK, May 22.—Hopes of American swimming enthusiasts for success in the Olympic games have been given a substantial boost by the excellent performances of Duke Kahanamoku, the Hawaiian champion, since he arrived in the East. His record of 1:04 for 100 yards at the University of Pennsylvania yesterday is very close to a world's record.

In the Olympic swimming series this event will be decided in open water, at which style the Hawaiian is without a peer in the world. He hopes to make a new world's record, which will stand for all time and under favorable conditions believes he can go the course in one minute flat.

It is generally conceded that the American Olympic team will be composed of seven swimmers and two divers.

H. J. Hehner, Percy McGillivray, J. H. Kelly, Arthur McAleese, Jr., and George Gaidis are likely to be chosen to keep Duke company.

HERE'S NERVE

Minor Managers Develop Players for Sale Like Incubator Chickens.

No "Old Heads."

WINONA (Minn.), May 22.—Prac-

tically no "old heads" with the ex-

ception of the four managers, will stay in the Minnesota-Wisconsin

league this year. The clubs have

found it imperative to choose young-

sters because the low salary limit

makes it almost impossible to employ

men who draw salaries above \$30 a

month. There is scarcely a man in

the league, except the managers, who

will draw above that figure, and a

wage at that level will not reach out

to attract experienced professional

baseball players. Lads who have

more than amateur or semi-pro-

fessional aggregations will thus be

given a chance to show their playing

ability, and it will be up to the man-

agers to bring them out.

Arden Day and Arch Brown, the

second and third end men, are well-

known. Brown is a yachtsman and

has cultivated a great voice while on

the stage.

Puss Halbritter, impresario, will

occupy the position of interlocutor

and conversationalist, being espe-

cially strong on the hot air stuff. He

had considerable experience in

his end of the line.

Westley Ruggles, brother of the

famous Charley, is the director of the

show and the star.

He is to be raised

upon the good part of the even-

ing. The third tambo will be C. J.

Reynolds. Reynolds is another pro-

fessional, having just come off the

Oriental circuit. It is promised that

he will be about the biggest hit of

the show.

Wayland Trank, going to sing

"That Haunting Melody" and he sure-

ly can tell it off in great style. West-

ley Ruggles will sing Bert Williams'

famous success "Come Down, Come

Dance" by C. J. Reynolds.

The big feature singing at the end of

the program will be coming along nice-

ly in practice. It will be specially

for the occasion by Phil Keane and Tom Oxnam has been chosen to

OLYMPIC MINSTREL MEN AID DONAHUE AND KELLY.

James Donahue.

Above, all around star, and Fred Kelly, the best hurdler on the Coast. The Olympic benefit, May 22, is to raise funds to send these boys to Sweden for international games.

and as it will probably be the last chance to see these two famous stars before they leave for the games a big crowd is expected.

Nothing to it.

CORNELL EASILY WINS TRIANGULAR REGATTA.

[SPECIAL BY FEDERAL WIRELESS TELEGRAPH LINE]

BOSTON, May 22.—Cornell's veterans eight made a runaway race at a forty-four stroke, as did Harvard and Princeton this afternoon in the Charles River Basin. Harvard was second by three lengths. What wind there was was practically down stream and in favor of the oarsmen.

The starting time was scheduled at 4 o'clock, but it was 4:25 when the first crew appeared underneath the bridge at the starting point. This was Harvard. Cornell immediately followed. Princeton came last to the start, paddling leisurely under the bridge at 4:27.

The finish was as follows: Cornell by three-quarters of a length. The times were as follows: Cornell, 3m. 26s.; Harvard, 3m. 35s.; Princeton, 3m. 38s.

Cornell won the freshman eight-dared race from Harvard by half a length.

Princeton challenged at the mile, but was unable to hold the pace.

The finish was as follows: Cornell by three-quarters of a length. The times were as follows: Cornell, 3m. 26s.; Harvard, 3m. 35s.; Princeton, 3m. 38s.

Cornell won the freshman eight-dared race from Harvard by half a length.

By Toots.

"THEES LI'L DANZE ARE VUR MUCH MANY LI'L DANZE."

BY GRACE KINGSLEY.

TOOTS PAKA officially at home! Bell with rings on her fingers and bells on her toes—oh, very much so! Who can fancy Toots tailored?

A vital, elemental creature, with midnight hair, and firm flesh like some ripe fruit come to sound maturity,—forever laughing at you between her pearls of teeth—that's Toots Paka.

It's the open season for new dances, certainly, but it seems you must take the hub tidy seriously!

"Well, how a girl dressed in a few little triangles and a little film star, with over a hundred people looking on, could fail to take herself seriously?" I told the press-agent.

But it seems that the blends and bangles aren't the reason at all.

"Oh, yes, I guess I'm a hool!" she laughs. "I guess I'm two people. But when I'm dancing, I feel Pele, goddess of thunder and the volcano, is true; and in my sun-dance, I worship like my mother."

She has a quaint little accent that makes you forgive her, even if she does at her grammar a lot. What are a few fugitives "ain't's" and misplaced "not's," when you forth between nearly teeth and ruby lips that laugh all the time?

"These li'l dance I do," she says, eyes flashing their magnetic fires of vitality and health, as she folds her superb arms, then stretches them forth in an excess of lithic energy.

"These li'l dances don't one up me," she says. "It is oh, very much many danze!"

The much many" dances turn out to be the Olapaha and the Puli, the wimpy dances which are the first of Toots' whirrings (which you're learning here), the more romantic spots on the islands; certain foods are taboo, and every little movement has a stored meaning all its own; the sun, sun-dance, consisting of sun-bathing of the eyes with the sun-shading of the eyes with the hand, the hula-kul, or war-dance, which you will remember as the last of her whirrings, and the Lomakai, the hula-hula, the hula-hula, which you get a more suggestion than that's what Toots says—and Toots, let me tell you, hasn't any foolish house pictures on her ceiling!

Horse Racing.

DON PRONTO IS PACING WINNER.

DRIVING CLUB MATINEE PROVES BIG SUCCESS.

Pronto—All Trotting Race One of Most Entertaining of Seven Events Enjoyed by Crowd of Fans—Three Horses Required for Two Races and Four for One Pace.

Don Pronto, driven by W. G. Durfee, won the his free-for-all pacing event in two straight heats and made the picture heat in 2:29; at the special harness racing matinee for visiting drivers held under the auspices of the Los Angeles Driving Club at Exposition Park yesterday afternoon.

Chiquita, driven by W. S. Maben, was second and Zomwoolee, driven by C. A. Holcomb, was third. A large crowd attended the matinee.

The free-for-all trotting race was perhaps the most exciting of the seven events of the afternoon. He Colorado, driven by Durfee, won thus ever—by taking two straight heats to the best of the rest to Lady Alice, the only other horse racing.

The race between these horses in the first and second heats was a pretty one. All the way around the course until near the finish in the first heat when Exposition Park all the horses in the second, when Lady Alice broke, the horses traveled side by side. Cheers greeted the drivers at the finish of the exciting heats.

David St. Clair, driven by J. E. Morrison, won the blue ribbon in the 2:29 class pacing in which four heats were required to decide

like a cross between the Texas Tommy and the Boston dip.

And to Toots Paka that dance is a religion.

Her mother, now dead, was Lilihi, principal dancer to the Queen, father an American; and when she was a tiny child, her father brought her over here. But the lure of the elements was too strong for her. Ten years ago she danced and sang and had Hayes like other people. Then she must go back to her people.

"Back," she says, "where we sit on the ground, with comfort, where we drown all the clothes that hurt; where we swim in the strong breezes, and set all together happily from the pol-calabashes."

Back, she says, "where they teach the little babes to dance—ay, by holding them out on the palms of their hands, long fingers, and the little ones, with their little muscles to the hubs; where they throw the babes in the streams, attached to huge bladders so they cannot sink, but, watched by their mothers instinctively paddle and swim."

"Ha, no pitiful!" she says, laughing merrily, when I exclaim.

She just can't make her feet have, even now, and down a little swaying rhythm to the music of the waves, she comes to take them off, and the strings and masses of blood-tinted opium and coffee-brown bamboo seeds and willie-willie seeds, crossed on her bosom and arms, dance and jingle to her

surprise.

Back to the wall, she says, "where we learn something. Listen, girl! All you need to do is to learn to have fun. The Paka's is to swing an hour a day, run for half an hour, row for two hours, walk a great deal. Dance when you haven't anything else to do, and always stay out of trouble. Don't do what you get a more suggestion, but that's what Toots says—and Toots, let me tell you, hasn't any foolish house pictures on her ceiling!"

And then I learn something. Listen, girl! All you need to do is to learn to have fun. The Paka's is to swing an hour a day, run for half an hour, row for two hours, walk a great deal. Dance when you haven't anything else to do, and always stay out of trouble. Don't do what you get a more suggestion, but that's what Toots says—and Toots, let me tell you, hasn't any foolish house pictures on her ceiling!"

Again miss hostess laughs, with something more earnest. "No like that!" she cries. "Never wear him—never!"

And then I learn something. Listen, girl! All you need to do is to learn to have fun. The Paka's is to swing an hour a day, run for half an hour, row for two hours, walk a great deal. Don't do what you get a more suggestion, but that's what Toots says—and Toots, let me tell you, hasn't any foolish house pictures on her ceiling!"

Again miss hostess laughs, with something more earnest. "No like that!" she cries. "Never wear him—never!"

And then I learn something. Listen, girl! All you need to do is to learn to have fun. The Paka's is to swing an hour a day, run for half an hour, row for two hours, walk a great deal. Dance when you haven't anything else to do, and always stay out of trouble. Don't do what you get a more suggestion, but that's what Toots says—and Toots, let me tell you, hasn't any foolish house pictures on her ceiling!"

Again miss hostess laughs, with something more earnest. "No like that!" she cries. "Never wear him—never!"

DAILY BEAUTY HINT: The girl who dreads the coming of warm weather because she perspires so freely, must take especial care of her person and bathe daily in hot water, remaining in the bath for at least twenty minutes. After this she should give her body a vigorous rubbing with soap and a stiff brush, and follow by an equally active rubbing with a coarse Turkish towel. This treatment, together with the use of talcum powders and, if necessary, deodorant powders, should remove from her mind all fear of offense from the odor of perspiration, no matter how warm the day.

All her housework has been recog-

nized as brain work!

It has been a long time in coming

and was long over-due; it had to

come some time.

I am sorry that this deserved recogni-

tion did not originate in Los An-

geles, but I am glad to say that our city

came second, to New York.

A few weeks ago I wrote of a new

kind of domestic service which had

been installed in an eastern city and

now I am glad to say that our Los

Angeles has that identical service.

I could say that it was a woman

who originated it, but it is a man—a

man! I am sure we shall have

nothing to name him, thus, many

years.

I am sure he must be a man who

commands humanity, first of all, be-

cause he holds his prospects "Brain

power," and then enumerates the

privileges to which he will entitl-

e himself—such as hours,

not the daily grind of the old-

fashioned hired girl who, as the genial

Dr. Bertram informs us, was long

ago buried beneath a tall monument

of standing pretty tasks and some not

so pretty. The girl, however, by the

way, is in line with the times.

This service for domestic emer-

gencies such as sickness of the house-

hold or unexpected company. The

service is engaged by the day and will

not exceed a week in duration. Do

you know of any place offering such?

It makes possible a response

to all respecting women. There

are few women who will treat the

old-time service as it should be

done, with so much respect and

consideration.

What do you do KNOW the women

do in this regard, but the fact

that such exist, is the reason why

this is no domestic service now-a-days.

Or at least it is partly the rea-

sonation that there is not enough

of all classes are striving toward

more independence. When

you see this with a domestic

servant, you realize the awful im-

plications of having some one com-

pete with you in the household

work, with a trained and steady

hand and no price in either

time or respect seems too high to

pay for this commodity—but when

it comes down in an every day

household matter or service, it is

the most natural—convenience, which is

recommending—I say, to those who

value it.

The Brain Broker says:

"I am sure that my friend from the

East is going with her to select a new

regime with the tailor promptly

leaving the leaves of Bacon book

in a day or two."

She said, "I am

not quite certain as to what I

had most need, for a nice suit,

and I had heard that you are as well

known here for your work as much

as anywhere else."

Of course my heart throbbed with

joy at this, and yet I tried to be as

thoughtful, of course, everybody in the

room knew that.

I was asked for something in all

the stores, and the tailor promptly

selected the leaves of Bacon book

as a day or two."

Ocean to Ocean.
**GREAT HIGHWAY
BOUND TO WIN.**

Interest of Thousands Is Awakened in Arizona.

Times' Special in Paradise of Apache Indians.

Citizens of the New State Subscribe Bountifully.

BY BERT C. SMITH.

(ST. LUCIE, WIRE TO THE TIMES.)

SAFFORD (Ariz.) May 22.—

Exclusive Dispatch. The Times Ocean-to-Ocean special is in the hands of the Indian. We have passed through the land of the Apache, where this fierce tribe is within bounds of practical prisoners of war. These men, who fought the white settlers so successfully, gathered around the big meeting at the San Carlos Reservation and some of the younger bucks allowed us to "snap" pictures of them.

Ninety hundred square miles of land as productive as any in Arizona and much of it with good water, is the heritage of the Apaches who, under Geronimo, were the scourge of this country. These men fought to drive back civilization, but today they have "anything but hostile when Dell M. Potter in The Times car toured through their lands. We stopped at the San Carlos station. We visited the Indian school. Here we were agreeably surprised when the Indian girls climbed all over the car and allowed us to snap pictures of them.

OLD BUCKS WHAILKE.

One of the significant facts which struck us today is that the old bucks, many of whom fought under Geronimo and Apache Kid, still have the warlike tendency and refused to even approach the car that is doing so much to build a national highway.

They were not trapped into showing surprise, but the younger men came forward, chattered themselves forward, showed a great interest when we explained that they were to have a fine road. Some of them, the young ones, are taking to farming and water is to be diverted from the Gila River for the cars start from Spring and Temple instead of First and Main.

According to committee reports submitted yesterday the proposition for branch library in Echo Park has no chance for success.

LOSES HIS AMERICAN WIFE.

Tulare Oriental Described by Fair-Skinned Native Will Import One of His Own Nationality.

TULARE, May 25.—Seeking solace from his wounded feelings as a result of the desertion of his beautiful American wife, Frank Gauthier, a well educated and prosperous young Japanese, will soon make his second marriage, this time to a comely Japanese widow whom he has never seen.

Kurihara recently bought the Kiriwa orchard and vineyard north of Tulare and also owns a ranch near San Pedro. It was several years ago that he married a beautiful young American girl, a blonde and a teacher in a kindergarten in Honolulu. He brought her here with him and the two apparently lived happily.

"Our beloved life," said Frank, "is so far as you can see, very happy, until one day my wife took a sudden notion to visit her mother in San Francisco. I consented to her going and she never returned. This venture, however, did not go well and made away with, but that's all right."

Frank says he has never seen his bride-to-be. She will arrive in San Francisco early in June and Kurihara will meet her there. She is a widow and has two children, named Sojuro and Okonomo. The marriage was arranged through the father of Kurihara, who is a member of the Graham county official piloted us into Safford.

One of the unique receptions of the day was at Pima, where we were served with glasses of lemonade by a number of pretty girls. Then at Thatcher a banner was stretched across the street welcoming The Times and its crew, and ice cream was served to us.

The tour of The Times is interesting thousands. We have already raised \$2000 for the new highway fund in Arizona and before we finish the tour of the State we will have raised more than was subscribed in Southern California if the prediction of National Organizer Dell M. Potter of the Ocean-to-Ocean Highway Association is correct.

Just as we were pulling out from Globe in the early morning hundreds of citizens surrounded the highway.

W. H. Wiggin, president of the Chamber of Commerce, gave a speech forward with a pledge of \$2000 for the Globe boosters, and L. L. Henry promised an additional \$2000 for the people of Miami.

RANQUET IN SAFFORD.

We were escorted into Safford by a brass band and were given a banquet tonight. A small meeting was held in the park and \$2000 was raised for the national highway movement. The meeting here was addressed by Supervisor Merrill, Dr. Clayton and others. The Times car will be presented to the Chamber tomorrow. We are promised an additional foot of the way through Arizona.

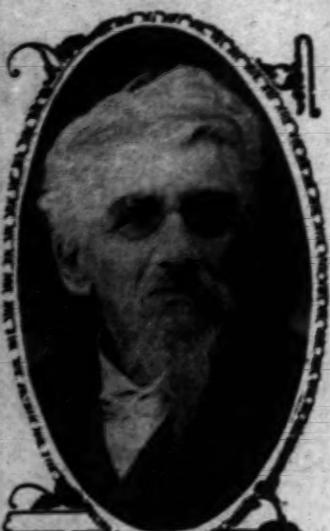

With an escort of twenty automobiles we left Globe early this morning. The Times ocean-to-ocean crew followed the road to the Gila Valley. This valley, which many would have us believe is a desert, is one of the most beautiful in Arizona. Roads were excellent most all the way through. An asphalt road, the grade of about thirty miles is to be used as the bed of the highway and a new road is to be put in at once. This stretch is directly along the national highway, and the San Carlos will follow which the new road will be built. Work was commenced in earnest today and several hundred Apache Indian bucks are at work rounding out the road. The Indians have purchased a road across the mountains to San Carlos, and by October 1st a fine stretch of highway as there is in America is promised.

On the way to the San Carlos Reservation out of Globe, we then hit a portion of the old railroad grade and this proved excellent. We followed it for many miles until we reached the old Indian ground of Chief Geronimo, who for years was the terror of the white settlers.

ENCORES WITH BRICK.

Louis Oden was arraigned in Justice Reeve's court yesterday on a charge of assault with a deadly weapon. His examination was set for the 27th inst., and he was locked in the County jail, awaiting trial.

The specific charge is that Oden beat brick at E. C. Haydock after a dance in Verdugo Canyon. Sanchez sustaining a scalp wound.

Were You Grouchy This Morning?

Cause by a sluggish liver? PADRE TONIC LAXATIVE Pure, made from simple herbs but wonderfully effective, fixes that in short order. Gives you APPETITE, GOOD DIGESTION, ABSORPTION, HEALTHY LIVER, VIGOROUS KIDNEYS, makes you the man you want to be. 25c 100 at your druggists. Realize the immense quantity for only a quarter. Get it today, be one of the boosters. Every one boasts PADRE'S TONIC LAXATIVE that has tried it. Remember our slogan: "Yes, my child, it's good."

Santa Monica.

FORMER HOTEL MAN PASSES ON.

MYRON KIMBALL DIES AT SANTA MONICA HOME.

One of California's Pioneers, Who Became Noted as a Friend of the Slaves, Was One of the First to Urge the Discovery of the Daguerreotype Process.

SANTA MONICA, May 22.—Myron H. Kimball, pioneer of Los Angeles and Santa Monica died this morning at his home on Second street following a long illness. Deceased, who was born in Oneida county, N. Y., in 1827, came to California in 1874 and finding Los Angeles in need of a first-class hotel he bought property and built on High street, north of Temple, the "Kimball Mansions." During the days in which the mansion was managed by Mr. Kimball Helen H. Jackson was his guest on more than one occasion and is said to have written several chapters of "Ramona" while making her home there. Retiring from active business life in 1882, Mr. Kimball selected Santa Monica for his home and had resided there ever since. While living in Los Angeles he acted as secretary for a number of years for the Southern California Agricultural and Horticultural Society.

Wilson Foster declared that the manner in which the Temple-street cars are operated is in direct violation of the franchise.

Resolutions urging the necessity for a new City Hall at Temple Block were adopted at the semi-monthly meeting of the North, East, West Commercial and Improvement Association yesterday. The resolutions contain a amendment in favor of the proposed levy and 10,000 copies of them are to be distributed by members of the association.

Wilson Foster declared that the manner in which the Temple-street cars are operated is in direct violation of the franchise.

A committee was appointed to call upon the City Council and Board of Public Utilities and endeavor to have the cars start from Spring and Temple instead of First and Main.

According to committee reports submitted yesterday the proposition for branch library in Echo Park has no chance for success.

The specific charge is that Oden beat brick at E. C. Haydock after a dance in Verdugo Canyon. Sanchez sustaining a scalp wound.

GIVE UP THE GHOST.

Complaint Who Sued Former Supervisor on Account of Injuries Sustained in Accident Quits.

On motion of the plaintiffs, Justice Reeve yesterday dismissed the action brought by Virginia M. Wilson and Robert K. Wilson against S. Justin Eldridge, former Supervisor, and David G. Colburn, both contractors, claiming \$222 damages, alleging that the defendants were injured when their auto ran into an obstruction on Wilshire boulevard.

A similar suit against John Hovey, former supervisor, and his son, Robert Hovey, brought by the Wilsons, however, still stands, and will be re-set for trial.

The Wilsons, while going to Venice Beach, July 7, 1911, ran into a board obstruction placed in the roadway by the employee of the contractors over new road work.

They were both painfully injured. Attorney Oscar Lawler, for Eldridge, asserted that the Highway Commission Act absolves Boards of Education of liability for all accidents on county highways. Attorneys Hancock and Lawrence, for the plaintiff, agreed to dismiss the two actions.

Spring in Yosemite Valley.

The home of the trail and the road to the Big Trees are open, the air is clear and the weather is cool. The Angeles district of the National Forest Association of Women's Clubs, consists of Mrs. P. Clark, secretary; Mrs. Harry J. Slater, Ocean Park; Mrs. H. C. Stockwell and Mrs. William Baugherty, Los Angeles; Mrs. M. H. Torrey, Sierra Madre.

It is hoped that the home may also be able to care for women discharged

Paris and the Pannier Skirt

You can find out if you want to know—and, of course, you do—what Paris says, what a great dressmaker has done

and what Miss Gould thinks, not only about the Pannier skirt, but also the other new ideas in spring and summer clothes.

The Pannier skirt is still scant. There will be the kimono sleeve and the sleeve bouffant.

There will be sash drapings, flounce and pleating. It will be a silk season in Paris—and here.

OTHER things collected and translated for you out of the original French about clothes and dress accessories, include—

"The Right Clothes for a Short European Trip"

"The Lingerie Blouse of Today"

"Embroideries for Little Girls"

"An Embroidered Pongee Costume"

"Dress for a Girl Graduate"

"Two Stenciled Dresses"

and many other helpful hints for every woman who wears clothes and cares what she wears it.

Eating in Summer

Of course, you must eat, but this is the time to abandon the heavy, hot dishes. Miss Farmer describes some excellent vegetarian dishes and suggests a whole month of menus for June.

SAVING TREATMENT.

HOPE TO CURE MILDLY INSANE.

HOME SECURED FOR PSYCHOPATHIC PAROLE SOCIETY.

Committee in Charge Believes Institution Will Save Many Women from Horrors of Insanity—Patients Discharged from Patton Also to Be Treated.

A home for the Psychopathic Society is assured. A good-sized, pleasant house in the suburbs, surrounded by blooming fruit trees and roses has been secured. The house has a large sleeping porch and a roof garden which will be utilized as a ward, accommodating at least twelve beds.

Before the place was fully equipped applications for admission began, and many wives of patients are being cared for. Cases which the Lunacy Commission find to be in a condition requiring only care and rest, cases of neuritis and mental disturbance which promise to yield to proper treatment will be taken for observation and care temporarily.

The examining physician of the home, Dr. C. Park, is a member of the Lunacy Commission.

When Are They?
GEMS AND COIN
IN HER CLOTHES.

Women With Hidden
Forces Arrested at Depot.

Girls Mysteriously Vanish
from Hotel Auto.

Police Believe They Are on
Trail of Robbers.

Detected by the police to the Arcadia station where she was about to take a train for the East, a fashionably-dressed woman giving her name as Miss Kinney was arrested late yesterday on suspicion that she was connected with the recent theft of some worth of diamonds from a room at the U. S. Grant Hotel at San Francisco.

What searched at the Central Station failed to cash and a number of small diamonds were found hidden in the prisoner's clothing despite the fact that she asserted she was a poor girl looking for a position.

A short time later James Fowles, said to be a friend of the young woman, was taken into custody at the Southern Pacific Depot and his connection with the diamond robbery was detailed to round up another member of the supposed gang who is said to have accompanied Mr. Foster to Los Angeles from San Antonio, where the party is known to have remained in hiding.

STORY OF ROBBERS.
Information received from San Diego last night that the jewels were stolen on the night of May 12 from Mrs. Fernald, daughter of Mrs. L. S. Fernald, a wealthy woman residing in West Orange, N. J., who was leaving a few weeks at San Fran-

cisco, a prominent New York banker who is said to be engaged to Miss Fernald, accompanied mother and daughter and was a guest at the home of the former at the time of the robbery.

According to information in the hands of the police, the prospective couple had given their bride-to-be a diamond ring in addition to a number of diamond rings, including fifteen of their alleged engagement.

The party had arranged to take the train for the East and the jewels were placed in a small hand grip bag which was left in the car when it arrived at the hotel automatics to go to the depot.

A moment later the suitcase was missing, and although detectives made a search of the car, no trace of the jewels was found until it was learned that a woman in Tia Juana possession of an unusual number of diamonds.

SHADOW THIS SUSPECT.

Acting on this information an officer was detailed to shadow the suspect who was unable to proceed until he found a friend in the city. After a friendly party had left for the last watch on Mrs. Kinney and her maid accompanied was renewed.

When the shadowed man appeared the woman became suspicious that she was being followed and made a hasty exit through a window. She then entered the hotel automatics to go to the depot.

When the man was about to board the train the detective decided that it was time to act and she was hustled into an auto and hurried to police headquarters.

She was then confronted with the list of rollbacks and asked for explanation as to where she obtained the money, but the prisoner would make any statement except that she had made a large sum in the last week. Her shorts were at all times, she said, was due to her maid, and while she admitted having a maid, she refused to implicate her in the robbery.

It was believed that she was

involved in the robbery of two men a short time ago, but she was not called for trial the morning when the witness had disappeared.

DRIVE ON HIGHWAYS.

Red and Marlboro' Roads of Red and Marlboro' Roads of the Board of Trade in the Building of Good Roads.

LOS ANGELES. May 23.—The Board of Trade has been reorganized by the Board of Trade of Taft in the movement looking to the construction of a wagon road from the North to the South. The statement is made that the new road will be built in the construction of the McKittrick and Fred, the subject of good roads proposed by several members of the Board of Trade being P. J. Morris and Fred H. Morris. In this case the members of the Board of Trade are to be the ones to be responsible for the proper thoroughfares to the North. McKittrick and Fred Morris and other persons concerned were operating on the idea that the new extension could be made by various oil companies for the development of different areas.

Trustee Gove has introduced a new anti-liquor ordinance to cover the loophole left in the Watts local option law, which permits whisky to be delivered "over the territorial line."

It appears that a great deal has been shipped into Watts and delivered. The new ordinance, which is a copy of the Alhambra ordinance, is being considered, and is calculated to prevent this.

By reason of the surprisingly mudied condition of the city's books and the government running into financial difficulties in regard to the affairs of the local public school, a secret committee was appointed by the Citizens' Progressive League to present the matter to the attention of the grand jury for investigation. The main object is to get at the truth of the matter.

anti-liquor ordinance to cover the

loophole left in the Watts local option law, which permits whisky to be delivered "over the territorial line."

It appears that a great deal has been shipped into Watts and delivered.

The new ordinance, which is a copy of the Alhambra ordinance, is being considered, and is calculated to prevent this.

SURPLUS WATER PLAN FOUND PRACTICABLE.

THAT contracts for the use of aqueduct surplus water at the rate of so much water to the acre per annum would be feasible, that they would be honored by the banks as first liens on property, and the financial institutions would lend money upon them was the main feature of the report presented by Special Counsel Mathews of the aqueduct, last night, for himself and City Attorney Shenk, to the Public Service Commission. At the last previous hearing the quantity of contracts was referred to Mathews and Stark for investigation, and to prepare details, if the plan should be found practicable.

The plan is to sell to any user the use of one inch of aqueduct water, and after 15 years the money thus raised to be used in the construction of distributing systems, the cost of which is roughly estimated at \$100,000,000.

Mathews said he had visited several leading bankers and financiers of the city with Shenk, and had laid the plan before them. The bankers had agreed that the contracts could be signed and used in every respect as other securities in money transac-

tions. To the other plan proposed, whether irrigation districts could be formed and bonds issued thereon, the bankers and a majority of the objection had been raised that the life of these bonds could be only twenty-one to thirty years. Mathews said, and the interest would be limited to 5 per cent. That the city could not suggest the use of the water for a longer period than 15 years had been suggested. Mathews went on, but one member of the commission, Alden Anderson of Redding, W. S. Clayton of San Jose, J. J. Fagan of San Francisco, Paul O. Tamm of Santa Clara.

The Committee on Nominations re-

ported the following recommendations:

President, A. E. Edwards of

Panama; vice-president, L. E.

Franklin; treasurer, George O'Brien of San Francisco;

four members of the Executive Council, George P. McNear of Petaluma, F. E. Hatch of San Bruno, H. E. Johnson of Los Angeles, Elliott McAllister of Marysville. The council elects the secretary, who will be F. H. Colburn. It is deemed probable that there will be no opposition to this.

W. D. Frederick of Pomona, secre-

tary of the California Building League by unanimous vote, recommended to the convention the subject of legisla-

tion against the promotion of corpora-

tions without substantial assets or

responsible control.

The convention adopted a resolution

requesting the Committee to co-operate

with the league's committee and all

civic bodies interested in progressive

and protective legislation to have

the power to prosecute law

and control of stock-

holding corporations.

The convention also adopted resolu-

tions favoring the enforcement of

false statements in certain laws;

recommendation to section 23, to permit

loans to corporations of which bank

directors are stockholders, under prop-

er safeguards; also to permit banks

to accept mortgages and trust deeds

as collateral security under the same

restriction as to loans on real es-

tate.

A committee reported the adoption of a resolution instructing the

Legislative Committee to bring in a

resolution to that effect at today's

session.

M. D. Wood of Merced, for the

California delegates to the American

Bankers' Association at New Or-

leans, submitted a report of their

trip and made suggestions of united

efforts of California at future con-

ventions. A telegram of greeting was

sent from the American Bankers'

Association.

The spirit of determination shown

by the Comptroller of the Currency,

Lawrence O. Murray, to make the

banks under his supervision live up to

the letter as well as the spirit of the

National Bank Act is highly creditable.

"One of the encouraging signs of

the times is the interest being shown

in agricultural development and edu-

cation. In its final analysis, this is an

economic question.

"We are more and more becoming a

nation of agriculturists, a nation pro-

duced of agricultural products. The

alarm has already been sounded, that

with a continuance of present condi-

tions and tendencies, the United

States will not be able to raise its

population much longer. This

condition stands as a menace to our

future prosperity. With what once

seemed our limited expanses of fer-

tilage, now nearly all under cultivation

the development of the problem lies

in the development of higher efficiency

in agriculture.

"The prosperity of our banks has

been a reflex of the general pros-

perity of the country, and we must

have a corresponding increase in

the population to support it.

"The marked increase in mem-

bership, especially among the younger

men of our society, whose goal of

ambition will never be reached until

the efficiency of the California Bank-

ers' Association is greater than that

of any other association in the State

or nation.

The Legislative Committee by the

most efficient service has evidenced

the wisdom of providing for such a

committee to secure the many needed

changes in the bank act that it did

not see fit to make itself responsible

for the law-making power and the execu-

tive branch of the government.

Business: Markets, Finance and Trade.

FINANCIAL NEWS SUMMARY.

DAILY EASTERN CITRUS MARKET QUOTATIONS.

(BY DIRECT WIRE TO THE TIMES)

NEW YORK. May 23.—(Exclusive Dispatch) Twenty-eight cars Naval, 1 car coal, 7 mixed cars coal. Box grades fully loaded, 10 cents; lower, 8 cents higher. Freight cars, 10 cents higher. Boxed fruit probably will be adopted by Board of Estimate to-day.

International. Shipping and Banking—The market was quiet yesterday, with no gains or losses. The city needs \$100,000,000 for subway work, which will probably be adopted by Board of Estimate to-morrow.

Securities. Banks protested against the proposed bill to increase the government's alleged coffee trust, fearing it may result in complications with the trust.

Great Corporations.averaging 10,000 men daily in new orders with mills operating at 30 per cent. of capacity.

Stocks of Standard Oil unchanged.

American stocks in London heavy to 5%.

State departments considering advisability of sending war ship to Cuba to protect Americans and property.

Private industries declined, 10 per cent.

With the early London market being the chief interest, shortly after the opening in our market activity was noticed by numerous speculative dealers who were evidently interested in their favorite issues. The New York transaction stocks were well bought and sold, and the market was considered quite quiet to a higher level.

Many railway corporations are on the eve of preparing specifications for the construction of new lines. This when given, will be an impetus for road and equipment stocks, some of which have been very quiet, but others of still they can ascertain a clearer view of the position.

The cost of resort, when the people are an opportunity to give them a rest, will be a factor in the price of stocks.
